

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

TO THE FIRST EDITION.

I SUBMIT, with the greatest deference, this volume of Exercises to those engaged in the business of education, content with little beyond a brief statement of the most important features of the plan of instruction pursued therein.

The plan, then, requires each exercise to be *written*;* and thus engages the eye as well as the ear in the study of Orthography, while, at the same time, it serves to improve the pupil in penmanship.

It renders necessary a due application of the Rules for Spelling; and so familiarizes the mind with those circumstances, under which, in the formation of derivative words, letters are so frequently omitted, inserted or exchanged for others.

It obliges the student to compare words, variously related, one with another; teaching him, in this, the most effectual way, to mark and mind those delicate distinctions, both in sense and sound, upon which accuracy and elegance in the written expression of thought, mainly depend.

It resolves derivatives, as also compounds, into their elements; explains the parts, both separately and in combination, and thus evolves their literal, or primary meanings. Going beyond this, especially in relation to those

* Should any one prefer that course, the Exercises may all be conducted orally. To written Exercises, however, I have never heard but one objection urged, and that is, that they would exhaust too much of the teacher's time in making corrections. This is a great mistake. If written in a clear and legible hand, as they always should be, experience will soon prove this objection to be utterly groundless. But supposing additional time to be required, is there not more than a fair equivalent for this in the additional advantage?

derivatives that admit a number of prefixes, it points out the connection between the primary and the other significations, and so trains the mind to habits of accuracy in logical deduction.

It offers, as might thence be inferred, the best possible substitute for the formal and regular study of the Classics; since, while, in the text, nothing is introduced that can embarrass either the teacher or the scholar, who is acquainted with no other than the English language, it puts both in possession of some of the chief advantages derivable from the study of Greek and Latin.

Finally, it leads to such inquiries into the meaning and application of words of all classes, as cannot fail to make the pupil acquainted with many facts and principles most useful to be known, yet seldom, if ever, acquired in the ordinary course of academical instruction.

NOTE TO TEACHERS

IN RESPECT TO THE PROPER MODE OF USING THIS BOOK

As a natural consequence of the favor* everywhere shown to the "ANALYTICAL MANUAL," by able and experienced instructors, the present edition comes forth carefully revised and extensively improved. Among other things, have been added, both in the text and in NOTES, numerous observations and suggestions designed to facilitate the use of the book in schools. These, at least, by the younger members of the Profession, should be carefully read: which being done, every thing, I think, of the nature of doubt and difficulty, as to the proper mode of conducting the exercises in the recitation-room, will immediately disappear. Other means of illustration, additional, perhaps preferable, will no doubt suggest themselves to many. To such I have only to say, (using for that purpose the oft-quoted words of Horace,) what to all may be said, respecting the entire work:—

—— *Si quid novisti rectius istis,
Candidus imperti; si non, his utere mecum.*

MANUAL

or

ORTHOGRAPHY AND DEFINITION.

SECTION I.

INTRODUCTORY OBSERVATIONS.

As all experience testifies that certainty and readiness in spelling, is the result of frequent and long-continued practice in *writing*, or otherwise actually *forming* words by their proper letters, every exercise in this book is arranged and designed to be written out, and presented to the teacher for criticism and correction. If the paper or slate be properly ruled according to the models; if the words be plainly and neatly written in regular columns; if, in short, the performance be made an exercise in penmanship as well as in orthography, not only will the advantage be double to the learner, but the task of the teacher in the way of examination and correction, will be comparatively short, easy and agreeable. To the written, also, may be added, with special benefit to the younger pupils, the ordinary *oral* exercise; while the Rules for Spelling, which apply with a frequency and accuracy surprisingly great, will, if duly observed, lend most important aid in the general design.

By far the more difficult and delicate task, however, is to expose and properly impress the true import of words. To effect this, in relation to those that are radical, they are here presented in several points of view: sometimes formally defined; sometimes placed, for the purposes of comparison and contrast, in juxtaposition with words conveying the same or an opposite signification; sometimes explained in immediate connection with others alike, or nearly alike, in form and sound, but altogether different in meaning.

The import of the radicals being known, it remains to ascertain what variations of meaning are afforded by combining prefixes and suffixes with them in the formation of derivatives, and by uniting words one with another in the production of compounds. For this purpose, all, or nearly all, the prefixes and suffixes employed in English, are carefully defined, and the force of each in combination il-

illustrated by a suitable example ; while the permanent compounds, which are, for the most part, of classical origin, and confessedly hard to be understood by the mere English scholar, are also resolved into their elements and thus easily explained. All this is done with little, or no reference, in the text, to other languages ; with which, indeed, both teacher and pupil are here supposed to be wholly unacquainted.

SECTION II.

PRIMITIVE, OR RADICAL WORDS.

Those are properly primitive, or radical words, that have their origin in no other words.* Their number is comparatively small. They serve, however, as *roots*, from which circumstance they derive their name, whence, by means of particles prefixed and suffixed, arise an almost countless multitude of derivatives. Thus from the simple form, *act*, we have *acted*, *acting*, *action*, *actor*, *active*, *actively*, *activity*, *actuate*, *actuated*, *actual* ; so, *re-act*, *co-act*, *enact*, *overact*, *counteract*, *transact*, *exact*. Again, in the words *abject*, *conject*, *deject*, *eject*, *interject*, *project*, *reject*, *subject*, we find the radical part, *ject*, the same throughout.

Now, between these two radicals, *act* and *ject*, there is one point of difference, which must be specially noted, since it forms the basis of an important classification. It is this:—the word, *act*, may be, and often is, used by itself, as a separate and independent word, while *ject*, the other radical, can never be thus separately employed, but must always appear, as above, in union with some modifying particle. Upon this difference, is founded the division, in this work, of radicals into SEPARABLE and INSEPARABLE. For the sake of distinction, the inseparable radicals, when *set apart* from their proper prefixes or suffixes in the following pages, are printed in *Italics* : when not thus separated, the entire word is presented in the ordinary type.

SECTION III.

PREFIXES AND SUFFIXES.

The English language has a number of significant particles, which, when combined with radicals, serve, as before intimated, to modify

* This is the strict and proper sense of the term. For the sake of convenience, however, the word, *radical*, is not unfrequently used to designate *any* word, that will admit a prefix or suffix.

their import. These particles are called prefixes and suffixes, and derive their names, as is plain, from their position in respect to the words with which they are found connected;—the prefixes being joined to the beginning, and the suffixes added to the end of the radical. Thus, in the words *befall*, *rewrite*, *dislike*, *unwise*, *misname*, *be*, *re*, *dis*, *un*, *mis*, are prefixes; each affecting, with a well-ascertained force, the word with which it is united; while, in *harmless*, *powerful*, *sadly*, and *goodness*, appear the suffixes, *less*, *ful*, *ly*, and *ness*, having each its own peculiar modifying effect.

It is, moreover, no uncommon thing to find a radical combined with, and affected by, several prefixes or suffixes at once. To illustrate:—the word *equal*, upon receiving the suffix, *ize*, becomes *equalize*, and means, *to make equal*; add to this the particle *ed*, and we shall have *equalized*, which signifies *did make equal*: where, be it observed, each of the suffixes in the combination, that is, *ize*, [*to make*,] and *ed*, [*did*,] exerts upon the radical its own peculiar force. So, on the other hand, in the word *reconjoin*, is furnished an example of a primitive word, under the joint influence of two prefixes, *re* [*again*] and *con* [*together*,] the signification of the word *reconjoin* being, *to join together again*. Two or more particles thus combined, form what may, for the sake of convenience, be called a *compound prefix or suffix*.

SECTION IV.

DEFINITIONS.

The experienced necessity of embodying in some brief form of words, those facts and principles that are frequently to be stated, suggests the propriety of placing here, in the shape of definitions *to be committed to memory by the pupil*, several things already explained or mentioned in the preceding SECTIONS.

I.

A RADICAL WORD is one that derives its origin from no other word; as, *rove*, *rare*, *man*.

II.

A SEPARABLE RADICAL is one that may be used without being united with a prefix or suffix; as, *name*, *act*, *wise*.

III.

AN INSEPARABLE RADICAL is one that always appears in union with a particle prefixed or suffixed; as, *dorm* [*to sleep*] in the word *dormant*: *ject* [*to cast*] in *reject*.

IV.

PARTICLES, in the present application of the word, are those significant letters or syllables, commonly called prefixes and suffixes, which are united with words to modify their meaning.

V.

A **PREFIX** is a particle placed before a radical, and in union with it, to vary or modify its signification ; as, *misguide*, *conjoin*.

VI.

A **SUFFIX** is a particle affixed to a radical, to vary or modify its signification ; as, *fearless*, *thoughtful*.

VII.

A **COMPOUND PREFIX OR SUFFIX** is one composed of two or more simple ones ; as, *reconjoin*, *professionally*.

VIII.

DERIVATIVE WORDS are those formed by the union of prefixes and suffixes with radicals.

IX.

COMPOUND WORDS are those composed of two or more simple ones ; as, *shipwreck*, nevertheless.

SECTION V.

RULES TO BE OBSERVED IN FORMING DERIVATIVE WORDS BY MEANS OF SUFFIXES.

In forming derivatives by means of suffixes, the pupil will soon find, that, in many instances, something more is required than merely to write the parts together as one word. Thus, if we desire to affix the particle *ed* to the word *suffer*, we have only to unite, without change, the suffix with the radical ; as, *suffered*. If we take *prefer*, which seems, in every respect, a case similar, the final letter, *r*, will be doubled, as, *preferred*. Again : if we add a suffix, as, *ed* or *ing*, to the word *glory*, we shall have, in the first case, to change the final *y* into *i*, as, *gloried* ; while, in the second case, the *y* must remain unchanged, as, *glorying*. If, instead of *glory*, we had taken the word *employ*, the final *y* would have undergone no change in either case ; the proper forms being *employed*, *employer*.

These and other changes of like nature, the pupil will often have to make, in preparing his exercises ; and, as they are not made at random, but, for the most part, in strict accordance with known Rules, the Rules are given below, in concise form, that they may be easily

learned and applied. Readiness in their application, however, can never be acquired by merely committing them to memory. They should be fully and repeatedly illustrated ON THE BLACKBOARD, *before* they are committed.

The mode of doing this, is very simple. Take, for instance, Rule VI. under which comes the word *prefer*, which, as we have seen, sometimes doubles its final letter on receiving a suffix.

Prefer-ed Preferred

Here show him that *all* the conditions of the Rule meet. *Prefer* has the accent on the *last* syllable—it ends with a *single* consonant [*r*]*—*that consonant is preceded by a *single* vowel [*e*]*—*and, finally, the suffix begins with a vowel [*e*]. He is now prepared to answer the question: “Why in adding *ed* to *suffer*, which is a case apparently like *prefer*, do you leave the final letter *single*, while in the latter instance, it is *doubled*?” Ans. “*Because, in the word SUFFER, one condition of the Rule is wanting:—the accent being on the first, not on the last syllable.*”

A little practice of this sort, repeated every day for awhile, varied of course to suit circumstances, will soon render the meaning and application of all the Rules clear and easy. In this way, regular formations will be made familiar, analogies learned and exceptions marked, which, though most important to be known, are seldom duly observed.

The notes on the RULES, are designed to point out several EXCEPTIONS. They should, therefore, be as carefully learned as the Rules themselves. If, however, in the following pages, any change or exception is to be made in adding a suffix, which is not mentioned either in the Rules, or the Notes of this Section, it will be specially noted, where it occurs.

RULE I.

The final *e* of a radical word, is usually rejected, when the suffix commences with a vowel; * as, *move-ing*, *moving*: *sale-able*, *salable*: *please-ure*, *pleasure*.

RULE II.

The final *e* of a radical word, is generally retained, when the suffix commences with a consonant; as, *hope-less*, *hopeless*: *move-ment*, *movement*.

* Observe, that *e* final, when preceded by *c* or *g*, is not to be rejected before the suffixes, *able* and *ous*; as, *peace-able*, *peaceable*, *peaceably*: *courage-ous*, *courageous*, *courageously*.

Observe, again, that when preceded by *e* or *o*, the final *e* is to be retained before *ing*; as *fee-ing*, *feeing*; *shoe-ing*, *shoeing*. So, also, before *able*; as *agree-able*, *agreeable*.

RULE III.

Words ending in *ate*, drop the letters *te* before the suffix *cy*; as, *private-cy*, *privacy*.

RULE IV.

Words ending *ant* or *ent*, lose the *t* upon receiving the suffix *ce*, or *cy*; as, *verdant-cy*, *verdancy*: *eminent-ce*, *eminence*.

RULE V.

The final consonant of a monosyllable, if preceded by a single vowel, is doubled before a suffix beginning with a vowel; as, *bag-age*, *baggage*: *spot-ed*, *spotted*.

RULE VI.

The final consonant of any word accented on the last syllable, if preceded by a single vowel, is doubled before a suffix beginning with a vowel;* as, *debar-ed*, *debarred*: *occur-ence*, *occurrence*.

RULE VII.

The final consonant, when not preceded by a single vowel, or when the word is not accented on the last syllable, remains single upon the addition of a suffix; as, *spoil-ing*, *spoilng*: *suffer-ed*, *suffered*.

RULE VIII.

The final *i* of a radical word, is omitted when the suffix begins with *i*; as, *alkali-ize*, *alkalize*: *dei-ism*, *deism*.

RULE IX.

The final *y* of a radical word, when preceded by a consonant, is generally changed into *i*, upon the addition of a suffix;† as, *happy-ness*, *happiness*: *story-ed*, *storied*.

RULE X.

The final *y* of a radical, when preceded by the letter *t*, is generally rejected before a suffix beginning with *a* or *o*; as, *purity-an*, *puritan*: *felicity-ous*, *felicitous*.

* OBSERVE that a condition, not expressed in the rule above, but always implied, is, that the accent, in the derivative form, shall still *continue* on the final syllable of the radical: thus, *refer'*, by the Rule, gives, with *ible* added, *refer'ible* but, in the form *referable*, where the accent falls back upon the first syllable of the radical, the *r* remains single.

† OBSERVE, that, in a few instances, the final *y* is changed into *e*, before *ous* and its compounds; as, *beauty-ous*, *beauteous*, *beauteously*.

OBSERVE, further, that, as *y* is often changed into *t*, so *i* is sometimes changed into *y*. Thus, in adding the termination *ing* to such words as *die*, *tie*, *lie*, if the final *e* be dropped according to Rule I. we shall have the forms *di-ing*, *ti-ing*, *li-ing*. To prevent the *doubling* of *i*, in such cases, therefore, the *i* of the radical part *di*, is changed into *y*; *dying*, *tying*, *lying*.

RULE XI.

The final *y* of a radical word, when preceded by a vowel, or when the suffix *begins* with *i*,* remains unchanged; as, buy-er, buyer: glory-ing, glory-ing: baby-ish, babyish.

RULE XII.

Words ending in *f* or *fe*, commonly change *f* into *v*, when a suffix is added beginning with a vowel; as, mischief-ous, mischievous: wife-es, wives.

RULE XIII.

Words ending in *er* or *or*, often drop the *e* or *o*, before a suffix commencing with a vowel; as, victor-ix, victrix: wonder-ous, wondrous.

RULE XIV.

Words ending in *le*, preceded by a consonant, drop these letters upon receiving the suffix *ly*: as, able-ly, ably; idle-ly, idly.

RULE XV.

Words ending in *ble*, before the suffixes *ity* and *ities*, take *i* between the letters *b* and *l*; as, able-ity, ability, abilities.

SECTION VI.

THE SIMPLE SUFFIXES.

The design of this Section is to exhibit the *form* and *force* of each of the simple suffixes. To familiarize the eye with their forms, they are printed in CAPITALS; while the words used to express their force, that is, to define them, are made to appear in *Italics*. For the sake of illustration, each, also, is combined with a radical, and the derivative thus formed, explained by connecting the definition of the suffix with that of the radical, or with the radical itself.

The *definitions* of the suffixes must be thoroughly committed to memory. They will be found to apply, in most cases, with little or no variation. Occasionally, however, slight changes† of expression

* OBSERVE, however, that, in some instances, where the suffix begins with *i*, the final *y* of the radical is *rejected*; as, eulogy-ist, eulogist: sympathy-ize, sympathize.

† Thus, the form of expression most generally employed to define *ize*, the first suffix explained in this Section, is, *to make*. But, though the predominant force of this particle be everywhere the same, and though that force may, for the most part, be well enough expressed by the phrase, *to make*, instances may be found, in which it will prove less suitable than some others that will very readily occur. Take the following examples:—

Idolize, to make, i. e. to esteem or worship as an idol.

will be required to meet particular cases, which a very little practice will enable any one to make with the greatest facility. In addition to the examples given below, the teacher should collect and present, for further illustration, as many more as may be convenient. If this suggestion be duly acted upon, the mode of defining by means of suffixes, will soon become both easy and familiar.

Special attention should be directed to those suffixes, which having very different uses, are for that reason made to appear in different Exercises, and under a different classification. Thus ANT and ENT, which in Exercise 2 are classed with *ing*, as having the same general signification, again appear in Exercise 4, along with that numerous list of terminations that mean *the person who*. In this matter, the teacher cannot be too particular.

EXERCISE 1.

IZE	} <i>to make; to give, to put upon or into.</i>	Civilize,	to make civil.
TIZE		Stigmatize,	to put a stigma upon.
ZE		Glaze,	to furnish with, or put in, glass.
ISE		Criticise,	to make criticisms.
SE		Cleanse,	to make clean.
ISH		Stablish,	to make stable.
FY		Satisfy,	to make, or do sufficient.
IFY		Justify,	to make just.
EN		Soften,	to make soft.
E		Breathe,	to make a breathing; to respire.

EXERCISE 2

ATE	} <i>to make, to give; to put upon or into.</i>	Maturate,	to make ripe, or mature.
IATE		Ampliate,	to make ample.
UATE		Actuate,	to make, or cause to act.
GATE		Implicate,	to make, or put in fold, i. e. involve.
ICATE	} <i>continuing to; ing*</i>	Duplicate,	to make duple, or double.
ITE		Unite,	to make one, i. e. to join together.
ING	Watering,	continting to water.	
ANT	Dormant,	sleeping.	
ENT	Pendent,	hanging.	
IENT	Sufficient,	sufficing, i. e. enough.	

Dramatize, to make, i. e. *to put into the form of a drama.*

Pulverize, to make, i. e. *to reduce to dust.*

Epistolize, to make, i. e. *to write epistles.*

* The suffix, *ing*, is placed above, as a definition of the terminations, *ant* and *ent* which are, in general, its true equivalents. To define a word ending in either of these suffixes, therefore, add *ing* to that word which expresses the sense of the *radical part*. The examples above well illustrate this; *dorm*, the radical part of *dormant*, signifies, *to sleep*; therefore, to define *dormant*, add *ing* to the word, *sleep*, and we get *sleeping*, the proper defining term.

EXERCISE 3.

EST	} <i>dost</i>	Runnest,	dost run.
ETH		Waketh,	does wake.
ES	} <i>does</i>	Wishes,	does wish.
S		Finds,	does find.
ED	} <i>did</i>	Preferred,	did prefer.
ATE		Suffered,	did suffer.
ITE	} <i>made; made of or like; possessed of; ED.*</i>	Globate,	made, or formed like a globe
EN		Erudite,	learned.
ED		Silken,	made of silk.
ED		Renowned,	possessed of renown.

EXERCISE 4.

ANT	}	Servant,	one who serves.
ENT		President,	one who presides.
ATE		Collegiate,	one who is a member of a college.
ITE	} <i>one who; a person.</i>	Favorite,	one who is favored.
AST		Encomiast,	one who praises, or extols.
IST		Botanist,	one skilled in botany.
ADO		Desperado,	a person who is desperate.
ARD		Dotard,	one who dotes.
ON		Glutton,	one who eats to excess.
OSO		Virtuoso,	one skilled in the fine arts, or in things curious or antique.

EXERCISE 5.

AR	}	Beggar,	one who lives by begging.
ARY		Adversary,	a person opposed, or hostile.
LARY		Incendiary,	one who maliciously fires or inflames.
ER	} <i>one who; a person.</i>	Payer,	one who pays.
EE		Payee,	one who receives pay.
EER		Charioteer,	one who drives a chariot.
LER		Cannonier,	one who manages a cannon.
OR		Executor,	one who executes a will, i. e. its provisions.
IVE		Executive,	one having power to execute laws.
STER		Teamster,	one who drives a team.

EXERCISE 6.

NER	} <i>one who; a person.</i>	Partner,	one who owns, or takes part.
YER		Lawyer,	one versed in law.
ZEN		Citizen,	one who dwells in a city.

* Notice, that the participial termination *ed*, like *ing*, after forms the best definition of its equivalents. This particle almost always conveys a *passive* sense; that is, it represents the person or thing to which the derivative word is applied, as being or having been affected by that which the *radical part* signifies. Thus, odor, [*scens* gives the form *odorate*, which is best defined, scented.

MAN	} <i>one who; a person.</i>	Artisan,	one skilled in an art, or trade.
AN		Veteran,	one old in any service, especially war.
IAN	} <i>a female.</i>	Grammarian,	one skilled in grammar.
TAIN		Chieftain,	one who is head, or leader.
ESS		Lioness,	a female of the lion kind.
IX		Medatrix,	a female who mediates.
INE		Heroine,	a female who is brave.
AGO		Virago,	a female with the sterner qualities of a man.

EXERCISE 7.

ITY	} <i>the quality or state of being; the thing which, or that which.*</i>	Publicity,	the quality or state of being public.
ETY		Variety,	the quality of being various.
TY		Novelty,	the quality of being novel.
CY		Privacy,	the quality or state of being private.
CE		Opulence,	the quality or state of being rich.
ICE		Justice,	that which is just.
UDE		Quietude,	the state of being quiet.
TUDE		Plenitude,	the state of being full.
ITUDE		Exactitude,	the quality or state of being exact.
NESS		Meekness,	the quality of being meek.
T	Restraint,	that which restrains.	
TH	Truth,	that which is true.	
R: NY	Sanctimony,	the quality of being sacred.	

EXERCISE 8.

ION	} <i>the act of; the thing which,* or that which.</i>	Erection,	the act of erecting.
MENT		Ejectment,	the act of ejecting.
AMENT		Armament,	that which is armed, i. e. a body of forces.
IMENT		Impediment,	that which impedes, or hinders.
URE		Pressure,	the act of pressing.
TURE		Mixture,	that which is mixed.
ATURE		Signature,	that which is signed, as one's name.
ITURE		Expenditure,	that which is expended, or laid out.

* Nearly all those suffixes which denote the quality or condition of a thing, do, also, frequently denote the *thing itself*. Thus, *novelty*, which expresses the quality indicated by the epithet *novel*, may, also, signify, *the thing which* is novel. In like manner, the suffixes which admit the definition, *the act of*, designate, also, *the thing which acts or is acted upon*. *Affirmation* is an instance; which means, either *the act of affirming*, or *that which* is affirmed; so *improvement*, which may signify, either *the act of improving*, or *that which* improves. The teacher will find it very useful to exercise the pupil in making this distinction.

AL	} <i>the act of; the thing which or that which.</i>	Refusal,	the act of refusing.
ADN		Cannonade,	the act of discharging cannon.

EXERCISE 9.

AL	} <i>pertaining, belonging or relating to.</i>	Central,	pertaining to the centre.
EAL		Corporeal,	pertaining to the body.
IAL		Dictatorial,	pertaining to a Dictator.
UAL		Habitual,	pertaining to habit.
KRN		Southern,	belonging to the South.
URN		Taciturn,	pertaining, or relating to silence.
IAC		Demoniac,	pertaining to a demon.
IC		Patriotic,	pertaining to a patriot.
TIC		Dyspeptic,	pertaining, or relating to Dyspepsy.
ATIC		Emblematic,	pertaining to an emblem.
ETIC	Dietetic,	pertaining to diet.	

EXERCISE 10.

ID	} <i>pertaining, belonging or relating to.</i>	Stupid,	pertaining to stupidity.
AN		Roman,	pertaining to Rome.
KAN		Marmorean,	pertaining to marble.
IAN		Newtonian,	pertaining to Newton.
ANE		Mundane,	pertaining to the world.
INE		Crystaline,	pertaining to crystal.
ILE		Infantile,	belonging to an infant.
ETH		Fortieth,	pertaining, or relating to forty.
TH		Tenth,	pertaining, or relating to ten.
AR		Columnar,	pertaining to columns.
ARY	Missionary,	pertaining to a mission.	
IARY	Stipendiary,	pertaining, or relating to a stipend.	
UARY	Sumptuary,	pertaining, or relating to expense.	

EXERCISE 11.

OSE	} <i>full of; abounding in; having the nature, or quality of.</i>	Verbose,	abounding in words.
OUS		Mountainous,	abounding in mountains.
EOUS		Righteous,	having the nature of right.
IOUS		Robustious,	having power, or strength.
UOUS		Tempestuous,	abounding in tempests.
CEOUS		Cetaceous,	having the nature of a whale.
ACEOUS		Lardaceous,	having the nature of lard.
ANEOUS		Instantaneous,	having the quality of an instant, i. e. immediate.
ONEOUS		Erroneous,	having the nature of error.
ETIOUS		Cementitious,	having the quality of cement.

FUL	} <i>full of; abounding in; having the nature, or quality of.</i>	Hopeful,	full of hope.
MY		Clayey,	abounding in clay.
Y		Juicy,	abounding in, or full of juice.

EXERCISE 12.

LEN	} <i>little, small, minute, slight, petty.</i>	Lambkin,	a little lamb.
LING		Kingling,	a little, or petty king
ULE		Globule,	a little globe or ball.
CULE		Animalcule,	a little, or minute animal.
CLE		Tubercle,	a little tumor, or swelling.
ICLE		Particle,	a little, or minute portion.
OCK		Hillock,	a little hill.
ET		Feveret,	a little, or slight fever
LET		Ringlet,	a little ring, or curl.
ASTER		Poetaster,	a little, or petty poet

EXERCISE 13.

ABLE	} <i>that may or can be; fit or liable to; capable of.</i>	Traceable,	that may be traced.
IBLE		Responsible,	liable to answer.
ILE		Tractile,	capable of being drawn out.
LY,		Rudely,	in a rude manner.
LIKE,		Larklike,	resembling a lark.
WISE,		Likewise,	in like manner.
IFIC		Torporific,	producing torpor, or numbness.
IFIC		Coinage,	the act of coining.
AGE*		Pupillage,	the state of being a pupil.
		Cartage,	the allowance for, or cost of carting.
	Anchorage,	a place where a vessel may anchor.	
ICS	} <i>the doctrine, art or science of.</i>	Optics,	the science of vision.

EXERCISE 14.

ISM	} <i>that which is peculiar to, i. e. an idiom; a doctrine; a state, or condition.</i>	Hebraism,	a Hebrew idiom.
		Calvinism,	doctrines peculiar to Calvin.
		Savagism,	the state, or condition of a savage.
LESS	} <i>without; destitute of; not capable of being.</i>	Cashless,	destitute of cash.
		Tameless,	not capable of being tamed.
WARD		Homeward,	towards home.
ER	more.	Wiser,	more wise.
EST	most.	Wisest,	most wise.

* This particle sometimes, also, denotes an assemblage of things, considered as unity. Thus, foliage, the leaves of a tree, (taken collectively);—plumage, the feathers (collectively) of a fowl.

END	} <i>that which is, or ought, to be; worthy to be.</i>	Reverend,	worthy to be revered.
CAND		Multiplicand,	that to be multiplied.
ISH		Newish,	somewhat new.
SOME		Spanish, Delightsome,	belonging to Spain. somewhat delightful.

EXERCISE 15.

DOM	} <i>the state, rank, office of; the territory or jurisdiction of.</i>	Popedom,	the rank or office of Pope.
RIC		Bishopric,	the jurisdiction of a bishop.
ATE		Electorate,	the territory of an Elector.
HOOD,		Childhood,	the state of being a child.
SHIP,		Township,	the territory of a town.
AGE,		Peerage,	the rank of a peer.
CY,		Captaincy,	the rank of captain.
RY,		Chieftainry,	the rank of chieftain.
ES,*	} <i>more than one; a plurality of.</i>	Boxes,	more than one box.
S,		Boys,	more than one boy.

EXERCISE 16.

Y,†	} <i>the art, practice or business of; the place where.</i>	Gluttony,	the practice of a glutton.	
RY,		Bigotry,	the practice of a bigot.	
ARY,		Statuary,	the art of making statues.	
ERY,		Cookery,	the art of cooking.	
ORY,		Armory,	a place where arms are kept.	
IVE,		} <i>tending to; having power or tendency to.</i>	Preventive,	tending to prevent.
ORY,			Compulsory,	having power to compel.
ING,		Amusing,	tending to amuse.	
ESCE,		} <i>to grow, or become.</i>	Intumescere,	to become swollen; to swell.
OID,			Spheroid,	having the form of a sphere.

* These are the *regular* plural terminations. In this work, the form *es* is added, with some exceptions, however, to those nouns that end in—

F or FE, if [See Rule XII.] <i>f</i> is to be changed into <i>v</i> ; as,	} calf-es, calves. life-es, lives.
CH <i>soft</i> ; as,	
SH; as,	} bench-es, benches. bush-es, bushes.
SS; as,	
S; as,	} hiss-es, hisses. genius-es, geniuses.
o preceded by a <i>consonant</i> ; as,	
x; as,	} hero-es, heroes. fox-es, foxes.
y preceded by a <i>consonant</i> ; as,	
	duty-es, duties.

† These suffixes sometimes, also, denote a body or collection of things, or individuals taken together; as, *perfumery*, a collection of perfumes: *directory*, a body or board of directors: *yeomanry*, the body of yeomen. The forms *ry*, *ary*, *ery* and *ory*, are really *compound*: thus, *rob*, robber, robbery. In many cases, however, they seem not such: thus, *cook*, cookery; *fool*, foolery. This may be true of a few other suffixes set down in the list above, as simple.

SECTION VII.

EASY EXERCISES IN THE USE OF SIMPLE SUFFIXES.

The exercises of this Section are to be written out according to the model on the preceding page. When the teacher gives out an exercise to be written, he should spend a few minutes in calling attention to each radical word in it, and point out, or cause the pupil to point out, what change, if any, according to the Rules for Spelling, it will undergo upon receiving the suffixes to be added. Suppose, for example, the Exercise to be No. 22. He may set out by remarking, that four of the radicals, *hinge*, *hire*, *ice*, *hoe*, end each with the letter *e*. When, it may be asked, is the final *e* of these words to be dropped? Before every suffix that begins with a vowel. Is the final *e* of the word *ice* to be dropped when you add the suffix *r*? Yes; because *y* in this situation is not a consonant, but a vowel.* Is the final *e* of the word *hoe*, to be omitted before the suffix *ing*?† No; because *e* final preceded by *o*, is retained before this termination. In this way, proceed in relation to each radical in the exercise.

At the time of recitation, the first thing is to examine the written exercise, and point out its defects. Then let the pupil spell *orally* each word, and define it by means of the suffix. To make him familiar with the mode of defining, it may be useful, in addition to the regular lesson, to take a number of easy radicals, and add to each the *same* suffix, so as to impress upon his mind the uniformity of the process. Thus:—

Baked, *did* bake. Blindly, *in a manner* blind. Greenish, *somewhat* green.
 Jumped, *did* jump. Sweetly, *in a manner* sweet. Clownish, *somewhat like* a clown.
 Moved, *did* move. Kindly, *in a manner* kind. Sluttish, *somewhat like* a slut.
 Talked, *did* talk. Nobly, *in a manner* noble. Slavish, *somewhat like* a slave.

SECTION VIII.

THE COMPOUND SUFFIXES.*

It has been shown, (Section 3), that two or more suffixes are frequently found in union with one radical, which is thus subjected to the modifying influence of several particles at once. In this Section, the examples are all of this kind. The *first* and *second* columns contain the suffixes each in its simple form. These being combined with one another, according to the Rules for Spelling, give the compound forms presented in the *third* column. In the *fourth* column, these compound suffixes again appear united with suitable radicals. The examples thus produced, are each so explained as to exhibit the *MODE* of defining; each definition being merely a connected statement of the meanings of the several parts taken together. That part of each definition, which belongs to the suffix, is printed in *Italics*.

The questions and answers following will serve to give a *hint* as to the manner, in which the exercise is to be conducted in the recitation room. Take the first example in the present Section. What does *IZE* mean? To *make*. What does *ED* mean? *Did*. What, then, is the meaning of the compound form, *IZED*? *Did make*. Can you define civilized? *Did make civil*. Legalized? *Did make legal*. In uniting *IZE* and *ED*, what letter was dropped? The final *e* of *IZE*. Why? The final *e* must be rejected, when the particle added begins with a vowel.†

EXERCISE 30.

ize	ed	ized	Civilized,	<i>did make civil.</i>
ize	ing	izing	Legalizing,	<i>continuing to make legal.</i>
ise	er	iser	Criticiser,	<i>one who makes criticisms.</i>
ish	ment	ishment	Abolishment,	<i>the act of making void.</i>
ish	able	ishable	Abolishable,	<i>that may be made void.</i>
ify	able	ifiable	Justifiable,	<i>that may be made, i. e. proved</i>
				<i>just.</i>
ify	es	ifies	Falsifies,	<i>does make false.</i>

* In this Section, will be found most, though not *all* of the compound suffixes in English. He, however, that understands those here illustrated, can have no difficulty whatever with the rest.

† See Rule I. It seems scarcely necessary to observe, that so far as the application of the Rules is concerned, it makes no difference, whether a suffix is to be added to a radical or to another suffix.

ify	er	ifier	Nullifier,	<i>one who makes null, or void.</i>
ify	est	ifest	Sanctifiest,	<i>doest make sacred, or holy.</i>

EXERCISE 31.

ate*	ed	ated	Meliorated,	<i>did make better.</i>
ate	ion	ation	Arbitration,	<i>the act of making a decision.</i>
ate	ive	ative	Memorative,	<i>tending to make one remember.</i>
ate	or	ator	Regulator,	<i>one who makes regular.</i>
ite	ing	iting	Uniting,	<i>continuing to make one.</i>
ite	er	iter	Uniter,	<i>a person who makes one, i. e. joins together.</i>
en	ed	ened	Hastened,	<i>did make haste.</i>
en	ing	ening	Brightening,	<i>continuing to make bright.</i>
en	s	ens	Fattens,	<i>does make fat.</i>
en	est	enest	Sharpenest,	<i>doest make sharp.</i>

EXERCISE 32.

ing	ly	ingly	Insultingly,	<i>in a manner insulting.†</i>
ing	ness	ingness	Pleasingness,	<i>the quality or state of being pleasing.</i>
ant	ly	antly	Incessantly,	<i>in a manner unceasing.</i>
ant	ness	antness	Pliantness,	<i>the quality or state of being yielding.</i>
ent	ly	ently	Providently,	<i>in a manner provident.</i>
ent	ness	entness	Ardentness,	<i>the quality or state of being ardent, i. e. hot.</i>
ant	cy	ancy	Radiancy,	<i>the act of radiating, i. e. shooting forth rays.</i>
ant	ce	ance	Assurance,	<i>the act of assuring.</i>
ent	cy	ency	Tendency,	<i>the act of tending, i. e. the drift or direction.</i>
ent	ce	ence	Obedience,	<i>the act of obeying.</i>

EXERCISE 33.

ate	cy	acy	Adequacy,	<i>the state of being adequate, i. e. made equal to.</i>
-----	----	-----	-----------	--

* The particle *ATE*, like several others of the same import, seems sometimes to add little or nothing to the meaning of the radical; or, at most, serves merely as the *sign* of a verb. Thus, *eradicate* means simply, *to root out*; where no such phrase, *as, to make, or to give*, could well be used to define the termination. In such cases, therefore, when another suffix is added, the latter *only* of course is to be defined thus, *eradicated, did root out*; *eradivative, tending to root out, &c.*

This remark will, also, apply to other suffixes of a different signification.

† Here note that one of the suffixes, [*ing*], is assumed to be sufficiently plain without definition. Had that part of the compound [*ingly*] been defined, the definition would have been thus: *in a manner continuing to insult*. In what cases, the definition of *each* part of the compound suffix should be given, must of course be left to the discretion of the teacher. Some prefer, in every instance, to define in *both* ways; thus, *Insultingly*, in a manner insulting, or in a manner continuing to insult. See, also, note upon *ING*, page 16.

ate	ness	ateness	Illiterateness,	<i>the quality or state of being unlettered.</i>
ed	ness	edness	Guardedness,	<i>the quality of being guarded.</i>
ed	ly	edly	Designedly,	<i>in a manner designed.</i>
en	ly	enly	Drunkenly,	<i>in a manner drunken.</i>
en	ness	enness	Drunkenness,	<i>the state of being drunken.</i>
ion	al	ional	Devotional,	<i>pertaining to devotion.</i>
ion	ary	ionary	Revolutionary,	<i>pertaining to a revolution.</i>
ion	able	ionable	Objectionable,	<i>liable to objection.</i>
ion	eer	ioneer	Auctioneer,	<i>one who sells goods at auction.</i>

EXERCISE 34.

ment	al	mental	Impedimental,	<i>pertaining to that which impedes.</i>
ure	ous	urous	Venturous,	<i>having the nature of a venture.</i>
ure	able	urable	Pleasurable,	<i>capable of giving pleasure.</i>
or	ship	orship	Dictatorship,	<i>the office of a Dictator.</i>
zen	ship	zenship	Citizenship,	<i>the rank of a citizen.</i>
on	ous	onous	Gluttonous,	<i>having the quality of one who eats to excess.</i>
ity	ate	itate	Facilitate,	<i>to give or afford facility.</i>
ity	es	ities	Rarities,	<i>a plurality of things rare.</i>
ity	ous	itous	Felicitous,	<i>having the nature of felicity.</i>
ty	ful	tiful	Beautiful,	<i>full of beauty.</i>

EXERCISE 35.

cy	es	cies	Delicacies,	<i>more than one delicacy.</i>
th	y	thy	Wealthy,	<i>abounding in wealth.</i>
mony	ous	monious	Acrimonious,	<i>full of that which is acrid, or pungent.</i>
al	ly	ally	Musically,	<i>in a musical manner.</i>
al	ity	ality	Fatality,	<i>the quality of being fatal.</i>
io	al	ical*	Symbolical,	<i>pertaining to a symbol.</i>
atic	al	atical	Problematical,	<i>pertaining to, i. e. having the nature of, a problem.</i>
id	ly	idly	Stupidly,	<i>in a manner stupid.</i>
id	ness	idness	Lucidness,	<i>the quality of being lucid.</i>

EXERCISE 36.

an	ize	anize	Americanize,	<i>to render, or make American.</i>
an	ism	anism	Republicanism,	<i>the principles of a Republican</i>
ile	ize	ilize	Fertilize,	<i>to make fertile.</i>
ile	ity	ility	Servility,	<i>the quality pertaining to a slave.</i>

* The simple forms, IO and AL, each mean *pertaining to*. The form ICAL, therefore, is a sort of *euphonic* combination, signifying no more than either of the parts taken alone. See, in connection with this, Note on ARE, page 27.

ar	ize	arize	Secularize,	<i>to make secular.</i>
ar	ly	arly	Singularly,	<i>in a manner singular.</i>
ar	ity	arity	Familiarity,	<i>the quality or state of being familiar.</i>
ose	ity	osity	Verbosity,	<i>the quality of being full of words.</i>
ous	ly	ously	Humorously,	<i>in a manner partaking of humor.</i>
ous	ness	ousness	Hazardousness,	<i>the quality of being full of hazard.</i>

EXERCISE 37.

ful	ly	fully	Spitefully,	<i>in a manner full of spite.</i>
ful	ness	fulness	Guilefulness,	<i>the quality of being full of guile.</i>
y	ly	ily	Hardily,	<i>in a manner hardy.</i>
ly	ness	liness	Neighborliness,	<i>the quality of being like a neighbor.</i>
y	er	ier	Needier,	<i>more needy.</i>
y	est	iest	Neediest,	<i>most needy.</i>
able	ness	ableness	Portableness,	<i>the quality of being able to be carried.</i>
able	ity	ability	Excitability,	<i>the quality of being liable to excitement.</i>
able	ly	ably	Seasonably,	<i>in a manner seasonable.</i>
ible	ity	ibility	Credibility,	<i>the quality of being credible.</i>

EXERCISE 38.

oid	al	oidal	Spheroidal,	<i>pertaining to a spheroid.</i>
ly	hood	lihood	Likelihood,	<i>the state of being likely, or probable.</i>
ive	ly	ively	Exclusively,	<i>in a manner tending to exclude.</i>
ive	ness	iveness	Exclusiveness,	<i>the quality of being exclusive.</i>
ory	ly	orily	Transitorily,	<i>in a manner tending to pass away, i. e. fleeting.</i>
cule	ar	cular	Animalcular,	<i>pertaining to a minute animal.</i>
ule	ous	ulous	Globulous,	<i>having the nature, or form of a small sphere.</i>
ule	ate	ulate	Granulate,	<i>to form into small grains.</i>
less	ly	lessly	Mercilessly,	<i>in a manner without mercy.</i>
less	ness	lessness	Guiltlessness,	<i>the quality, or state of being without guilt.</i>

EXERCISE 39.

ish	ly	ishly	Sluttishly,	<i>in a manner like a slut.</i>
ish	ness	ishness	Heathenishness,	<i>the quality of being heathenish.</i>
some	ness	someness	Irksomeness,	<i>the quality of being irksome.</i>

some ly esce elt	somely escent	Gladly, Rancescent,	<i>in a manner somewhat glad, continuing to grow, or becomes rancid.</i>
esce ed	esced	Coalesced,	<i>did grow together, or did be- come united.</i>
esce ing ific ate	escing ificate	Coalescing, Certificate,	<i>continuing to grow together, to make, or that which makes, certain or sure.</i>

EXERCISE 40.

ifiably*	Justifiably,	<i>in a manner capable of being made, i. e. proved, just.</i>
ulating	Acidulating,	<i>continuing to make slightly acid.</i>
ishingness	Astonishingness,	<i>the quality of being astonishing.</i>
itedly	Unitedly,	<i>in a manner united.</i>
ionally	Conventionally,	<i>in a manner pertaining to a convention.</i>
mentally	Experimentally,	<i>in a manner pertaining to experiment.</i>
itanism	Puritanism,	<i>the doctrines or principles of a Puritan.</i>
itously	Gratuitously,	<i>in a manner gratuitous.</i>
moniousness	Sanctimoniousness,	<i>the quality of being full of Sanctimony.</i>

EXERCISE 41.

icalness	Heroicalness,	<i>the quality of being heroic.</i>
ilizing	Fertilizing,	<i>continuing to make fertile.</i>
ulated	Granulated,	<i>did form into small masses or grains,</i>
escence	Crudescence,	<i>the state of being crudescenscent.</i>
arliness	Beggarliness,	<i>quality of being like a person who begs.</i>
ativeness	Concentrativeness,	<i>the quality of tending to concentrate.</i>
icalness	Tragicalness,	<i>the quality of being tragical.</i>
tifulness	Plentifulness,	<i>the quality or state of being plentiful.</i>
ualized	Spiritualized,	<i>did make spiritual.</i>

* In the last two exercises of this Section, the compound suffix, in each case, consists of at least three simple ones. The compound forms only are given. Here let the pupil exercise himself in separating these compound suffixes into their elements, and in explaining their import both separately and in combination. Let him take, for instance, the first one above, *IFIABLY*, and analyze it thus: *IFY*, to make,—*ABLE*, that may be; *capable of being*,—*LY*, in a manner. Then combine each with the radical one after another, and define after this manner:—*Justify*, to make, i. e. to prove to be, just; *Justifiable*, capable of being made just; *Justifiably*, in a manner capable of being made just. Sometimes it will be sufficient to give the definition of but one or two of the simple suffixes in the compound, the remainde being plain enough without being defined: thus, instead of defining the form *Justifiably*, in a manner capable of being made just, we may say,—in a manner justifiable, or, in a justifiable manner.

SECTION IX.

EXERCISES IN WHICH THE RADICALS ARE SYNONYMOUS.

If the student be familiar, as he should be, with the matters taught in the preceding Sections, he may now enter, with profit and pleasure, upon the study of what follows. His attention hereafter is to be specially directed to the sense of the radicals; since the radical sense, modified indeed by the addition of suffixes, is that which pervades all the derivative forms. To this end, therefore, are presented in this and several succeeding Sections, a series of radicals with the proper suffixes to be added, arranged in parallel columns, in such manner as to make them mutually explain, or define one another.

It must be kept in mind, however, throughout, that these words are not here set down as *exact* synonymes. Their degrees of proximity in meaning will be found to be very various: sometimes, indeed, so near as to challenge the nicest discrimination, sometimes, perhaps, so distant as to make the propriety of the classification itself doubtful. The design of this, is to afford to every pupil suitable scope for the exercise of his powers of discrimination; and thus to impress upon the mind the true import of each word by carefully comparing it with, and distinguishing it from, others of like signification.

It will be found highly subservient, moreover, to the general design, to exercise the pupil in distinguishing *the parts of speech* to which the words in the lesson, both radical and derivative, severally belong; as also, in *composing sentences* in which, they are made to appear properly employed. This last is an exercise of the greatest utility. It is capable of almost endless variation, and, when rightly conducted, not only teaches the true meaning and application of individual words, but also, seldom, if ever, fails to excite a deep and lively interest in the art of composition.

From the following questions on the word *art*, which occurs in the first exercise of this Section, may, perhaps, be derived some further hints, or suggestions respecting the mode of conducting the recitation. What is the first synonym of *art*, given in this lesson? *Trade*. When have these two words the same signification? When they are applied to a calling, or occupation. What is an *artist*? One skilled in an art. An *artisan*? One skilled in an art. What difference, then, if any, is there in meaning, or application between these words? The term *artist* is chiefly applied to a person skilled in any of the *fine arts*;* as a sculptor, an architect: *artisan* is applied to one skilled in any of the *useful or common arts*; as a carpenter, a blacksmith. The

* Here, as in numerous other cases, is afforded a fine opportunity for explanatory observations. The scholar will listen with interest, while the teacher in showing the true application of these kindred terms, lays before him the distinctive character and subjects of the two classes of arts, to which they severally refer.

former is sometimes styled a *professor*; the latter is commonly called a *mechanic*. Can you compose a sentence, in which one, or both of these words shall appear rightly used? *Many who call themselves ARTISTS, scarcely deserve to be called ARTISANS.*

SECTION XII.

EXERCISES IN WHICH THE RADICALS ARE OPPOSITES.

Hitherto the endeavor has been to explain the radicals by comparing them with words of like signification. We are now to seek the same end, by means directly the reverse. The utility of this course will immediately appear, if we reflect that not unfrequently the surest and speediest way to reach the precise import of a word, is to compare it with one, that is known to convey the opposite signification; and, further, that, for the purposes of vivid illustration, a thorough acquaintance with this class of words, is, perhaps, indispensable. The words here presented as opposites, however, are not in every case *precisely* such. A most useful and instructive exercise, indeed, would be, to endeavor to find out those particulars in which the contrast, in any given case, is not complete.

SECTION XIII.

RADICALS ALIKE OR NEARLY ALIKE IN SOUND, BUT DIFFERENT IN FORM AND MEANING.

The object of this Section is to familiarize the mind with those differences in orthography and signification, by which many words, nearly or exactly the same in sound, are distinguished from each other. Here will be seen the utility of *written* exercises. The distinctions to be noted, are such as address themselves to the *eye*, and not to the *ear*; hence the importance of employing that organ chiefly in learning them.

To impress upon the mind the differences of signification between words of this class, the plan, already recommended, of composing sentences† embracing the words defined in the lesson, is by far the most efficient. As the form of the written exercise will be somewhat different from that thus far employed,—some of the radicals being explained by formal definitions, others by terms synonymous which are expanded by suffixes,—a model is given on the page following, that the mode of preparing the written part of the lesson, may immediately appear.

* Upon adding this suffix, the final *e* of *agree* is not to be rejected.

† The sentences in this Section, however, should always be in *writing*.

SECTION XV.

The variations of meaning produced by the union of suffixes with radicals, may, in this section, perhaps, be better observed than in any of the preceding, since the primitive, for the most part, is here made to undergo a greater number of modifications. Here, also, will be found some words having numerous and widely different applications, affording opportunity for many remarks, critical and explanatory, which can be made nowhere with so great advantage as in the recitation room. The first exercise of this series, except some derivative forms omitted for want of room, is presented on the page preceding. The pupil will, of course, introduce *all* the derivatives in his written exercise

* *Vegetate* is, to make or become quick, or vigorous in growth, i. e. to sprout; to germinate; to shoot up.

† The form *vendite* signifies a public sale to the highest bidder; auction.

‡ To *vermiculate*, is to form work by inlaying, in such manner as to resemble the motion of a worm:—*vermicelli* is a name applied to a paste rolled in the form of little worms, and used in soups.

§ A *verderer*, or *verderer* is an officer in England, having charge of the King's forest.

|| *Vinery*, a structure raised for the support of vines, and for exposing them to artificial heat:—*vintner*, a dealer in wines:—*vintage*, the produce of the vine for the season, or the time of gathering the grapes. Upon adding *tner*, *try*, and *tage*, a final of the radical is dropped.

¶ We have, also, the form *virtu*, which signifies, a love of the fine arts; a taste for things curious or antique: whence the derivatives, *virtuose*, *virtuosship*.
** *Virtual*, being in effect, i. e. real.

¶ An Iambus, or Iambic, consists of one short and one long syllable. Iambics, (the plural,) are verses composed of short and long syllables in alternate succession.

** The form *idiotism* is sometimes used to signify a peculiarity of expression, i. e. an idiom;—sometimes, *mental weakness*, i. e. folly; *idiocy*. To explain this, we have only to recollect, that *idiot* and *idiom* are both from the Greek *ιδιος*; [*idios*], *proper*; *peculiar*; *private*. *Idiot* [*idworns*] was applied to a *private* person, as opposed to one in office or otherwise publicly engaged; thence, naturally enough, to one *inexperienced*, or *ignorant* of business affairs; and, finally, to a *simple*, *silly*, or *foolish* person, to which last signification, the word is, in English, confined.

‡ *Mechanics*, the science of motion, or of moving forces ; literally, the science of machines.

§ Drop the last three letters of the radical, upon adding this suffix.

|| The leading office of Mercury, though many and various he had, was that of messenger of the other gods. He is usually represented as having a winged cap [*petasus*] and winged sandals, [*talaria*], with which he could perform their errands with the greatest celerity. Hence the application of his name to the metal *quicksilver*, in allusion to its *volatility* ;—to one of the *planets*, because of its *speed* ;—and to *sprightly qualities*, as belonging to one born under the influence of that planet. *Mercurify* is to obtain mercury from metallic minerals : *mercurification*, the act of mixing with quicksilver.

¶ The form *militia*, literally signifies *soldiery*, but is now restricted to bodies of men, enrolled, and trained in military movements, though not brought into actual service in war, except in cases of emergency. *Militate* is, to serve as a soldier, i. e. to fight ; to war ; to oppose.

¶ Among the ancient Athenians, persons deemed dangerous to the state, were condemned to exile in the manner following. Each person inscribed upon a shell [*οστράκον, ostrakon*] the name of the person, whom it was his wish to banish. If, upon counting the votes given, the name of the same individual appeared upon a majority of 6000 shells, that person was sentenced to banishment for ten years. Hence we have the forms *ostracize* and *ostracism*, which latter signifies the act of banishing in the manner just described. *Ostracite*, is applied to an oyster shell in the fossil state.

Whitsuntide‡					The season of Pentecost.
Zodiac	al				A great circle in the heavens, containing the twelve Signs.

* Drop the last letter of this word, before adding the suffixes.

† Upon adding this suffix, drop the last three letters of the radical.

‡ Upon adding the suffixes, drop the last two letters of this word.

§ Compounded of the three words, *white*, *Sunday* and *tide*. The season of Pentecost was so named from the circumstance, that the new converts in primitive times, appeared at church, from Easter to Pentecost, in white garments.

|| Zodiac, from a Greek word, [*zōdion*, diminutive of *ζῶον*,] meaning an animal, signifies containing, or consisting of animals ; this great circle of Constellations being so called, from their supposed resemblance to the figures of certain animals.

SECTION XVII.

THE SIMPLE PREFIXES.

PERFECT familiarity with the form and force of each of the prefixes defined and illustrated in this Section, is absolutely necessary to the proper study of the extensive and important class of words, that come next in order to be treated. The *predominant* signification, in each case, is indicated by a word in small CAPITALS, while the other defining terms are, for the sake of distinction, printed in *italics*. In every instance, no little care should be taken to point out, and fix upon the pupil's mind, this primary and prevailing power, whatever be the particular word or words employed to express it. Thus, in explaining *Ab*, which stands first in the list, and which is well enough defined or translated, in most cases, by such words as *from*, *away*, *off*, or *apart*, examples sufficient should be given and so explained, as to show that its everywhere prevalent force is to express *separation*—the parting of one thing from another.

Those prefixes which, besides their ordinary meanings, have certain special powers, or uses, and are thence classed as *negative*, *privative*, *intensive* or *euphonic*, will require particular care; since without this, there is great and constant liability to error. And as these terms must frequently occur in pursuing this study, and should, therefore, be well understood, the following definitions are given to be committed by the pupil.

DEFINITIONS.

I.

A NEGATIVE PARTICLE is one that indicates or implies the denial or absence of that which is expressed by the radical; as, *illegal*, *not* legal: *unshapen*, *without* shape, or *not* shaped.

II.

A PRIVATIVE PARTICLE* is one that indicates the privation, or dis-possession of that which is denoted by the radical; as, *disarm*, *to take out of the state of being* armed, i. e. to deprive of arms.

III.

AN INTENSIVE PARTICLE is one that serves to give additional force to the meaning of the word with which it is combined; as, *exasperate*, to make *very*, or *exceedingly*† angry.

* As the distinction between negative and privative particles, is very likely to be misunderstood by young pupils, care should be taken to make it plain. This is easily done by resort to examples. Thus, in *dislike*, which means I do *not* like, we have *dis* plainly *negative*; while in *disarm*, which means *to deprive of* arms, the same particle has a *privative* power.

† Notice, that *Ex* in *exasperate*, which properly means *out*, or *out of*, has not

IV.

An EUPHONIC PARTICLE *s* one that serves merely to produce an agreeable sound ; as, ameliorate, for meliorate.

The prefixes, like the suffixes, occasion by their union with radicals, the necessity of certain euphonic changes ; which, though not made with that regularity, nor with that frequency observable in the case of the latter, are, nevertheless, both regular and frequent enough to justify a statement of the circumstances under which they are found to take place. And, as in that form, they are most likely to arrest the scholar's attention, they are here presented as

RULES

FOR THE FORMATION OF DERIVATIVE WORDS BY MEANS OF PREFIXES.

RULE I.

The final vowel of a prefix is often omitted, before a radical that begins with a vowel ; as, anti-arctic, antarctic ; para-ody, parody.*

RULE II.

The final consonant of a prefix, is generally assimilated to the initial consonant of the radical ; as, ad-nex, annex ; sub-fix, suffix.

RULE III.

In some instances, the final consonant of a prefix, instead of being assimilated to the initial consonant of the radical, is rejected ; as, ab-vert, avert ; con-regent, co-regent.

RULE IV.

Between the prefix and the radical, is sometimes inserted a mere letter of union ; as, bi-ocular, binocular.

In preparing his exercises, the pupil will have little, or no occasion to *make* the changes which these rules prescribe ; since, to prevent embarrassment and mistake, they are, for the most part, already made for him. This, however, should not release him from the duty of becoming familiar with them, and understanding their application.

In this and the next section, it will be noticed, that the *radicals* are not separately defined, but explained in connection with the prefixes.

here its appropriate sense, but, serving merely to indicate a higher degree of anger, is accordingly defined by the word *very*, or *exceedingly*. In this book, intensive particles are uniformly defined by such words as *very*, *exceedingly*, *fully*, *thoroughly*, *completely*.

* When both vowels are retained, they are sometimes separated by the hyphen or the diæresis ; as, pre-establish, or præestablish.

To determine, in each instance, what part of the definition belongs to, or is intended for the *radical* portion of the derivative, one has only to direct attention to those words *not* in Italics, and not inclosed in brackets. In many cases, the radical is deemed sufficiently simple without a defining word; accordingly, it appears in the definition, joined with that word, or those words only, that serve to explain the prefix.

EXERCISE 445.

Ab*	} FROM; <i>away</i> ; <i>off</i> ; <i>apart</i> .	<i>Absolve</i> ,	to free <i>from</i> .	
Abs		<i>Abstrude</i> ,	to push or thrust <i>away</i> .	
A		<i>Avert</i> ,	to turn <i>away</i> or <i>from</i> .	
Ad†		<i>Adjoin</i> ,	to join <i>to</i> .	
Ac		<i>Accredit</i> ,	to give credit <i>to</i> .	
Af		<i>Affix</i> ,	to fix <i>to</i> .	
Ag		<i>Agglutinant</i> ,	sticking <i>to</i> .	
Al		<i>Alligate</i> ,	to bind or tie <i>to</i> .	
An		} TO; <i>towards</i> ; <i>at</i> ; <i>near</i> ; <i>on</i> ; <i>to make</i> .	<i>Annex</i> ,	to join <i>to</i> .
Ap			<i>Append</i> ,	to hang <i>to</i> .
Ar			<i>Arrogant</i> ,	claiming <i>to</i> [one's self.]
As			<i>Assimilate</i> ,	to make like or similar <i>to</i> .
At			<i>Attracting</i> ,	drawing <i>to</i> or <i>towards</i> .
A‡			<i>Ascribe</i> ,	to write or mark down <i>to</i> [one's account.]

EXERCISE 446.

All	} WHOLLY; <i>completely</i> ; <i>en-</i> <i>tirely</i> .	<i>All-just</i> ,	<i>entirely</i> just.	
Al§		<i>Already</i> ,	<i>completely</i> ready.	
Am		<i>Amputate</i> ,	to cut <i>round</i> , and hence, to cut off.	
Amb	} ABOUT; <i>around</i> , <i>doubtful</i> ; <i>double</i> .	<i>Ambient</i> ,	going <i>around</i> .	
Ambi		<i>Ambilogy</i> ,	<i>doubtful</i> talk or language.	
Amphi		<i>Amphibious</i> ,	having, as it were, a <i>double</i> life or nature.	
Ante	} BEFORE; <i>previous</i> ; <i>in front</i> .	<i>Antecedent</i> ,	going <i>before</i> .	
Anti		} AGAINST; <i>opposite</i> ; <i>corres-</i> <i>pondent</i> .	<i>Antipathy</i> ,	a feeling <i>against</i> .
Ant			<i>Antarctic</i> ,	<i>opposite</i> to the arctic.

* This particle, especially the form *a*, is often *negative* or *privative*.

† Notice here, that *d*, the final letter of *ad*, is nine times *assimilated* by Rule II. and once rejected by Rule III.; making, in all, ten forms of this one particle, beside the primitive one.

‡ This form of the prefix *ad*, must not be confounded with the *a* above, which is from *ab*, and has, accordingly, a meaning exactly opposite. That particle *a*, however, which denotes privation or negation, is in most instances, as the classical scholar will instantly perceive, the Greek *alpha* privative or negative, though here ranked as a form of *ab*. With this distinction, however, the mere English scholar need not be troubled; since *ab*, considered as a privative, has precisely the same force as the privative or negative alpha of the Greek. For a similar reason, the Saxon prefix *a* is not, in the text, distinguished from *a*, the abridged form of *ad*, which is a Latin reposition.

§ *All*, when not separated from the radical by a hyphen, rejects one *l*.

EXERCISE 447.

Ana	UP; again; apart.	Anadromous,	running, or passing up.
Apo		Apostatize,	to stand away from, that is, to forsake.
Aph	FROM; off; away.	Aphæresis,	the taking [of an initial letter or syllable] from [a word.]
Be		NEAR; by; over; to make.	Beside,
Bene	WELL; good.	Beneficent,	doing well or good.
Bi	TWO; apart.	Bifold,	two-fold.
Cata	AGAINST; down; ill; ac-	Catabaptist,	one who is against baptism.
Cath		ording to.	Catholic,
Cis	ON THIS SIDE.	Cisalpine,	on this side of the Alps.

EXERCISE 448.

Circum	AROUND; about.	Circumfluent,	flowing around.
Circu		Circuition,	the act of going around.
Contra		Contradict,	to speak against, or in opposition to.
Contro	AGAINST; opposite; corresponding.	Crontrovert,	to turn against [in dispute,] i. e. to dispute.
Counter		Counterpart,	correspondent part.
Con	WITH; within; together; joint; like; to make.	Convoke,	to call together.
Co		Co-partner,	a joint partner.
Com		Commix,	to mix together.
Cog		Cognate,	born together; hence, allied by blood.
Col		Collocution,	the act of speaking together.
Cor		Corrival,	arival with [another,] i. e. a fellow rival.

EXERCISE 449.

De†	FROM; down; off; to cause.	Depart,	to part from.
	or make.	Dejected,	cast down.
Demi	HALF.	Demi-wolf,	half-wolf.
Dia	THROUGH; thoroughly; to-	Diameter,	the measure [i. e. a right line] through.
Dicho	APART; in two parts.	Dichotomize,	to cut in two.
Dis‡		Distend,	to stretch apart.
		Disable,	to take out of the state of being able.
Dif	APART; separately; away;	Diffident,	not trusting [one's self.]
Di	not.	Dilacerate,	to tear apart.
Dys	ILL; bad; difficult.	Dyspnœa,	difficult breathing.

* Here note that *Cath* in *catholic* is merely intensive.

† *De* is not unfrequently a privative; and occasionally a mere intensive.

‡ The most common use of *Dis*, is to express privation or negation. In a few cases, however, it is intensive; in fewer still, euphonic.

EXERCISE 450.

E	} OUT; <i>out of; from; beyond.</i>	Eject,	to cast <i>out</i> .
Ex		Exceed,	to go <i>beyond</i> .
Ec		Eccentric,	<i>out of, or deviating from</i> the centre.
Ef	} BEYOND.	Effluxion,	the act of flowing <i>out</i> .
Extra		Extravagant,	wandering <i>beyond</i> [due limits.]
Epi	ON; <i>upon; over; during.</i>	Episcopcy,	a looking <i>over, i. e.</i> superintendence.
En	} IN; <i>into; to put, or cause to be in.</i>	Enclose,	to close <i>in</i> .
Em		Embroid,	<i>to put in</i> a broil or tumult.
Eu		Well; <i>good; easy; agreeable.</i>	Euphony,

EXERCISE 451.

For	AGAINST; <i>off; aside.</i>	Forfend,	to fend or parry <i>off</i> .
Fore	BEFORE; <i>beforehand.</i>	Forebode,	to show <i>beforehand</i> .
Hemi	HALF.	Hemisphere,	<i>half</i> a sphere.
Hypo	UNDER.	Hypothecate,	to place <i>under</i> [pledge, <i>i. e.</i> to pledge.
Hyper	OVER; <i>above.</i>	Hypercritic,	one who is <i>over</i> critical.
In*	} IN; <i>into; upon; not; to make; put in.</i>	Inspire,	to put, or excite spirit <i>in</i> .
Im		Imbrown,	to make brown.
Ig		Ignoble,	<i>not</i> noble.
Il		Illegible,	that can <i>not</i> be read.
Ir		Irruptive,	breaking or rushing <i>in</i> or <i>upon</i> .

EXERCISE 452.

Intro	WITHIN; inward.	Introspection,	a looking <i>within</i> .
Infra	BENEATH; below.	Inframundane,	<i>beneath</i> the world.
Inter	} BETWEEN; <i>among; mutually; in the midst of.</i>	Intervene,	to come <i>between</i> .
Enter		Entertissued,	woven <i>between</i> .
Juxta	NEAR; <i>side by side with.</i>	Juxtaposition,	position, <i>near, or beside</i> .
Male	} ILL; <i>bad; evil.</i>	Malevolent,	wishing <i>evil</i> [to others.]
Mal		Malformation,	<i>ill</i> or <i>bad</i> formation.
Meta†		Metamorphose,	to form <i>differently, i. e.</i> to transform.
Meth	BEYOND; <i>differently; after; according to.</i>	Method,	<i>after, or according to</i> a way, or manner.

EXERCISE 453.

Mis	WRONG; <i>erroneously.</i>	Misguide,	to guide <i>wrong</i> .
Non	NOT.	Non-juring,	<i>not</i> swearing, or taking the oath.

* As a general thing, *In*, when prefixed to verbs and participles, signifies *in, into, on* or *upon*; when united with other parts of speech, it is a *negative*. Like *Dis*, however, it will be found sometimes to add nothing to the meaning of the radical, or at most, merely to give some slight degree of intensity.

† The predominant power of *Meta*, is to express *change* or *transference*. It is, therefore, often equivalent to *trans*.

Ne	NOT.	Neither,	<i>not</i> either.
Ob	} IN FRONT; <i>before</i> ; <i>towards</i> ; <i>against</i> ; <i>down</i> ; <i>to make</i> .	Obvious,	going <i>in front</i> or <i>before</i> , hence, open, plain.
Oc		Occlude,	shut or closed <i>against</i> .
Of		Offer,	to bear <i>before</i> [one;] hence, to present.
Op		Oppress,	to press <i>against</i> or <i>down</i> .
Off	FROM; <i>opposite</i> .	Offscouring,	that which is scoured <i>off</i> or <i>from</i> , <i>i. e.</i> the refuse.
Out	BEYOND; <i>better</i> ; <i>more</i> .	Outrun,	to run <i>beyond</i> .

EXERCISE 454.

Over	ABOVE; <i>beyond</i> ; <i>too</i> .	Overshoot,	to shoot <i>beyond</i> .
Para	} FROM; <i>against</i> ; <i>near</i> ; <i>side</i> <i>by side</i> .	Parasol,	[a small canopy to shield] <i>from</i> the sun.
Par		Parody,	an ode, or song [which is but an alteration] <i>from</i> [another.]
Pen	ALMOST; <i>nearly</i> .	Peninsula,	<i>almost</i> an island.*
Per	THROUGH; <i>thoroughly</i> ; <i>by</i> .	Perforate,	to bore <i>through</i> .
Peri	AROUND; <i>about</i> ; <i>near</i> .	Perimeter,	the measure <i>around</i> , [a body or figure], <i>i. e.</i> its limits.
Por	FORTH; <i>forward</i> .	Porrection,	a stretching <i>forth</i> .
Post	AFTER.	Postpone,	to place <i>after</i> , <i>i. e.</i> to put off.
Pre	BEFORE; <i>previously</i> .	Prejudge,	to judge <i>beforehand</i>

EXERCISE 455.

Preter	BEYOND; <i>past</i> .	Preternatural,	<i>beyond</i> the natural.
Pro	FORE; <i>forth</i> ; <i>in place of</i> .	Produce,	to bring <i>forward</i> .
Pur	FORE; <i>forward</i> .	Purvey,	to <i>foresee</i> ; to provide.
Re	AGAIN; <i>back</i> ; <i>against</i> .	Review,	to view <i>again</i> .
Retro	BACKWARDS.	Retrograde,	to go <i>backwards</i> .
Semi	HALF.	Semi-circle,	<i>half</i> a circle.
Sub	} UNDER; <i>after</i> ; <i>aside</i> ; <i>in</i> <i>place of</i> ; <i>smaller</i> .	Subnascent,	growing <i>under</i> .
Suc		Succeed,	to follow <i>after</i> .
Suf		Suffossion,	the act of digging <i>unae</i>
Sug		Suggest,	to put under [notice], <i>i. e.</i> to hint.
Sup		Suppress,	to press <i>under</i> , <i>i. e.</i> to subdue; to conceal.
Sur	Surreption,	the act of seizing <i>under</i> [cover,] <i>i. e.</i> <i>un-</i> <i>wares</i> .	
Subter	Subterfluous,	flowing <i>under</i> .	

* That is, a tract of land *almost* surrounded by water.

EXERCISE 456.

Sur	OVER; <i>beyond</i>	Surcharge,	to <i>overload</i> .
Sus	UP; <i>upward</i> .	Sustain,	to hold <i>up</i> , <i>i. e.</i> to bear
Se	APART; <i>aside</i> .	Secede,	to go <i>apart</i> , <i>i. e.</i> to separate from.
Sine	WITHOUT; <i>destitute of</i> .	Sinecure,	[an office of profit,] <i>without</i> employment.
Super	OVER; <i>above; beyond</i> .	Supernatant,	swimming <i>above</i> , <i>i. e.</i> on the surface.
Supra	ABOVE; <i>beyond</i> .	Supravulgar,	<i>above</i> the vulgar.
Syn	} WITH; <i>together; alike; joint</i> .	Synopsis,	a view [of things] <i>together</i> , <i>i. e.</i> a general view.
Sym		Sympathy,	feeling <i>with</i> [another,] <i>i. e.</i> fellow feeling.
Syl		Syllable,	a taking <i>together</i> , <i>i. e.</i> a combination, [of letters.]

EXERCISE 457.

Trans	} ACROSS; <i>over; beyond; on the other side of</i> .	Transported,	carried <i>across</i> .
Tran		Transude,	to sweat, or ooze <i>across</i> , or <i>through</i> .
Tra		Trajecting,	throwing, or casting <i>over</i> or <i>across</i> .
Ultra	BEYOND.	Ultramontane,	<i>beyond</i> the mountains.
Un*	NOT.	Unwise,	<i>not</i> wise.
		Unbind,	to take <i>out of the state of being</i> bound.
Under	BELOW; <i>beneath; inferior</i> .	Underagent,	an <i>inferior</i> agent.
Up	ABOVE; <i>aloft; on high</i> .	Uplift,	to lift <i>aloft</i> .
With	AGAINST; <i>aside; back</i> .	Withstand,	to stand <i>against</i> , <i>i. e.</i> to resist.

SECTION XVIII.

COMPOUND PREFIXES.

THE prefixes are not so variously, nor so frequently combined as the suffixes. In the exercises of this Section, therefore, though few, the pupil may, perhaps, find examples sufficient to enable him fully to understand both the mode of combining and defining them.

* *Un*, prefixed to verbs and participles, is a *privative*; as, *Unbind*, to take out of the state of being bound. When in union with other parts of speech, it is equivalent to the negative *in*, and is often interchanged with it; as, *Uncurable* or *Incurable*, *Uncontestable* or *Incontestable*.

EXERCISE 458.

Im	per	<i>Impe</i> forated,	<i>not bored through</i> , or <i>not perforated</i> .
In	per	<i>Imper</i> fect,	<i>not thoroughly</i> made or done, or <i>not perfect</i> .
Im	pro	<i>Impro</i> vident,	<i>not seeing</i> or looking <i>forward</i> , or <i>not provident</i> , i. e. wanting forecast.
In	ad	<i>Inad</i> vertent,	<i>not turning</i> [the mind] <i>to</i> , or <i>not advertent</i> , i. e. heedless, negligent.
Ir	re	<i>Irre</i> claimable,	that can <i>not</i> be called <i>back</i> [from vice, ⁷ or <i>not reclaimable</i> .

EXERCISE 459.

Co	ex	<i>Co-extending</i> ,	stretching <i>out</i> [equally] <i>with</i> , or <i>extending</i> [equally] <i>with</i> .
Fore	ad	<i>Fore-admonished</i> ,	advised to <i>previously</i> , or <i>previously admonished</i> .
Un	in	<i>Uninhabitable</i> ,	that can <i>not</i> be dwelt <i>in</i> , or <i>not inhabitable</i> .
Un	im	<i>Unimpressive</i> ,	<i>not adapted</i> to fix deep <i>upon</i> [the mind,] or <i>not impressive</i> .
Re	an	<i>Re-annexed</i> ,	joined to <i>again</i> , or <i>annexed again</i> .

EXERCISE 460.

In	com	<i>Incomposite</i> ,	<i>not put</i> or placed <i>together</i> , or <i>not composite</i> .
In	di	<i>Indispersed</i> ,	<i>not scattered</i> , or driven <i>apart</i> , or <i>not dispersed</i> .
Ir	re	<i>Irrevocable</i> ,	that can <i>not</i> be called <i>back</i> , or that can <i>not</i> be <i>revoked</i> .
Mis	re	<i>Misreport</i> ,	to carry <i>back</i> an <i>erroneous</i> [account,] or to report <i>erroneously</i> .
Pre	com	<i>Precompose</i> ,	to put <i>together previously</i> , or to <i>compose previously</i> .

EXERCISE 461.

Pre	e	<i>Pre-elect</i> ,	to choose <i>out beforehand</i> , or to elect <i>beforehand</i> .
Re	ap	<i>Re-apportion</i> ,	to portion <i>to again</i> , or to <i>apportion again</i> .
Un	sur	<i>Unsurpassed</i> ,	<i>not passed beyond</i> , i. e. <i>not exceeded</i> .
Un	pro	<i>Unprovoked</i> ,	<i>not called forth</i> , or <i>not provoked</i> .
Un	as	<i>Unassimilar</i> ,	<i>not similar to</i> , or <i>not assimilar</i> .

EXERCISE 462.

Re	sub	<i>Re-subject</i> ,	to throw or cast <i>under</i> [power] <i>again</i> , or to <i>subject again</i> .
----	-----	---------------------	---

U.	trans	<i>Untransmitted,</i>	<i>not sent over or across, or not transmitted.</i>
Semi	per	<i>Semi-perspicuous,</i>	<i>half visible through, or half perspicuous.</i>
Un	di	<i>Undiverted,</i>	<i>not turned aside, or away, not diverted.</i>
Un	pre	<i>Unpredicted,</i>	<i>not foretold, or not predicted.</i>

EXERCISE 463.

Re	in	<i>Re-inspect,</i>	to look <i>into again</i> , or to <i>inspect again</i> .
Re	pro	<i>Reproduce,</i>	to bring or lead <i>forth again</i> , or to <i>produce again</i> .
In	co	<i>Incoherent,</i>	<i>not sticking together, or not coherent.</i>
Dis	ac	<i>Disaccustom,</i>	<i>to take out of the state of being habituated to, or to take out of the state of being accustomped.</i>
Un	ex	<i>Unexhausted,</i>	<i>not drawn or drained out, or not exhausted.</i>

SECTION XIX.

THOSE derivatives in which the radicals appear in union with prefixes, and upon the study of which we now more directly enter, have come to us, at various times and through various channels, chiefly from the Greek and Latin. The prefixes and suffixes being now supposed to be well understood, nothing more is required, in order to the right apprehension of the *literal* or *primary* meanings of this very numerous class of words, than the easy task of learning the true import of comparatively a few short and simple radicals. From the *literal* or *primary* sense, however, flow, and to it in every case must be referred, those that are figurative or metaphorical. For this reason, the exercises in this and the four SECTIONS following, have been so formed and arranged, as to make the study of the relations existing between the literal and the figurative significations of words, a necessary part of the pupil's duty. He is, accordingly, first presented with an exercise containing a few radicals defined literally,* each accompanied by particles to be prefixed; being then expected, from his knowledge of the elements that enter into their composition, to give readily the primary meaning of each derivative thus formed. But, to give him facility in this, he must be often and closely pressed with questions like the following:—What is the meaning of *vident*? † *Seeing*. Has it a suffix? If so, what suffix?

* As these radicals, for the most part, both separable and inseparable, stand united with *suffixes*, care must be taken, in each instance, not to confound that part of the definition which strictly belongs to the *root*, with that which is intended to explain the *suffix*.

† See Exercise 464

ENT. What is the meaning of ENT? *The same as ING*, that is, *continuing to*. What then, is the sense of the root *vid*? *See*. How then may I define *vident*? *Seeing, or continuing to see*. Is *vid* a separable radical? *It is not*. Is *vident* separable. *It is not*. Why? *Because it always appears in union with a prefix*. What prefixes are here to be combined with it? *Pro* and *Impro*. What is the meaning of *Provident*? *Foreseeing*. *Improvident*? *Not foreseeing*. What is the force of *Im* here? *Negative*. What is a negative? In this way, the pupil will soon acquire a degree of accuracy, not otherwise easy to be attained.

The elements, both separately, and in combination, being well understood, the scholar then comes to an exercise, sometimes more than one, in which the same *radicals*, or most of them, appear in connection with the prefixes, the literal signification of the whole combination stated, and the attempt made to exhibit the manner in which the figurative, or metaphorical, have arisen from the primary applications. Those exercises in which the radicals stand apart from the prefixes, as the first one below, are to be written according to the model [No. 4,*] at the head of SECTION XXII.; the others, according to that on page 85, No. 3.

EXERCISE 464.

Pro	Impro	<i>vident,</i>	} seeing, or looking.
Pro	Super	<i>vision,†</i>	
Con	E	<i>vince,‡</i>	} the act of seeing, or looking.
Con	E	<i>viction,§</i>	
Di	Pre	<i>varicate,</i>	} to conquer; to subdue.
			} the act of conquering.
			} to go astride, or crookedly; to deviate from a direct course.
Di	E	<i>vulgation,§</i>	} the act of spreading among the <i>people</i> .
Con	Recon	<i>vey,</i>	
Con	De	<i>vex,</i>	} to bear, or carry.
Sur	Pur	<i>vey,</i>	
			} borne, or carried.
			} to see, or look.

* This model [No. 4] will serve to show the mode of writing all the exercises of the same kind in this, and the four Sections, next succeeding.

† The design of the Brace [~] after the radical forms *vident* and *vision*, is to indicate their common origin. The pupil will not unfrequently find two or more kindred forms connected in this way, and may hence know that they are traceable to the same original source.

‡ NOTE that most of these radical forms admit a number of suffixes not here set down, thus forming numerous English words by a simple change of termination. A good oral exercise, after the regular lesson, is to train the pupil in thus forming and defining derivatives. The teacher will of course guard his scholars against the error of assuming the right to form and use words not already sanctioned by reputable custom. From the roots above, legitimate words may thus be formed:—

Vis, visive, visual, visible, visibly, vision, visionary.

Vince, vincible, vincibleness.

Vict, victor, victress, victory, victorious, victoriously.

Vulg, vulgar, vulgarly, vulgarity, vulgarity, vulgarize, &c. &c.

§ The root of this word is the Latin *vulgus*, the common people; the populace.

EXERCISE 465.

Provide,	to foresee [<i>things for the future</i> :] hence, to get ready beforehand ; to furnish.	ed	ential	ence
Provision,	the act of providing ; anything provided.	al	ally	ary
Convince,	to conquer fully [<i>in argument</i> ;] hence, to prove to one's satisfaction.	ed	ingly	ible
Convict,	to overcome fully [<i>one resisting a charge of guilt,</i>] i. e. to prove him guilty.	ed	ive	ion
Prevaricate,	to go very crookedly ; hence, to shuffle ; to quibble ; to evade.	ed	ing	or
Divaricate,	to straddle apart, i. e. to separate into two branches ; to fork.	ed	ing	ion
Divulge,	to scatter among the people, i. e. to tell ; to publish.	ed	ate	ing
Convey,*	to carry with [<i>one</i> ;] to bear away ; to transfer.	ed	ing	ance
Convex,	carried with [<i>the concave,</i> i. e. <i>over</i> it ;] hence, gibbous ; opposed to <i>concave</i> .	ity	edly	ly

In	Ac	<i>cead,</i> {	to glow ; to fire, or inflame.
In	Ac	<i>ension,</i> }	the act of firing, or inflaming.
Ex	Dis	cruciating,	torturing.

* In each of the words, convey, purvey, and survey, the radical part *vey*, is, in form, the same ; and it might thence be inferred, that the same radical sense belongs to them all. But, as the Braces indicate, *vey* in *convey*, comes from a different root, [VEHO, *vehere*, VEXI, *vectum*,] from *vey* in *purvey* and *survey*, which latter [French, *voir*,] like *vident* and *vision*, is from VIDEO, *videre*, *vidi*, VISUM, *to see*.

† *Dexterity* is from the Latin *dexter*, *the right hand* ; and, since we more readily and skillfully use the right than the left hand, we have *dextrous*, *dextrously*, *dextrousness* and *dexterity*, which all imply *skill* or *expertness*.

‡ *Camp*, from the Latin *campus*, literally signifies a field, but is in English restricted to a field, or ground on which a body of soldiers pitch their tents.

§ *Courage* is from the Latin *cor* [κῆρ,] *the heart*. The termination *age* indicates *spirit*, *action* or *vigor*.

|| *Cruciating* from *crucio*, a Latin verb derived from the noun *cruz*, *crucis*, a *cross*.

* The primary sense of the Latin verb *puto*, whence the form *putation* above, is not certainly known. The simple verb in that language has the significations, *to clean* ; *to prune* ; *to think* ; *to reckon*. As, therefore, the meaning assigned to *putation* in the text, best explains, in my judgment, the applications of the derivatives, I have, without hesitation, adopted it.

SECTION XXIV.

COMPOUND WORDS

As in analyzing derivatives, we set out with an explanation of the suffixes, taken apart from the radicals with which they are found connected, so in resolving into their elements the class of words now under consideration, we shall begin by explaining separately those parts that are *postfixed*. These *postfixed* words must be well understood by the pupil, before he enters upon the study of the next Section* ; since it is there taken for granted, that the learner is perfectly familiar with their significations. Most of them, it will be perceived, are *separable*, that is, incapable of being used as separate and independent words.

EXERCISE 677.

<i>cracy</i> ,	government ; rule.
<i>demic</i> ,	relating to, or affecting the people.

* It is not, however, necessary, neither indeed is it expedient, perhaps, that the whole of this Section should be learned, before commencing the study of the next. Let the scholar learn thoroughly the meanings of all the words in one Exercise of this Section ; then proceed in the next Section, till his stock of *postfixed* words is exhausted. Then let him return again and learn the next Exercise in order and so continue studying the two Sections connectedly throughout.

<i>Hydr,</i>	<i>water.</i>	<i>Hydragogue,</i>	<i>that which leads off water, or watery humors.</i>
<i>Peym,</i>	<i>saliva; spittle.</i>	<i>Peymagogue,</i>	<i>that which leads forth, or promotes saliva.</i>
<i>Cardi,</i>	<i>the heart.</i>	<i>Cardiology,</i>	<i>rain at heart i. e.ocardium.</i>
<i>Odont,</i>	<i>a tooth.</i>	<i>Odontology,</i>	<i>toothache.</i>
<i>Cephal,</i>	<i>the head.</i>	<i>Cephalalg,</i>	<i>headache, or pain in the head.</i>
<i>Noct,</i>	<i>night.</i>	<i>Noctambulist,</i>	<i>one who walks at night, that is, during sleep.</i>
<i>Somn,</i>	<i>sleep.</i>	<i>Somnambulist,</i>	<i>one who walks during sleep.</i>
<i>Tri,</i>	<i>three.</i>	<i>Triangle,</i>	<i>a figure having three angles.</i>
<i>Quadr,</i>	<i>four.</i>	<i>Quadrangle,</i>	<i>a figure having four angles.</i>

SECTION XXV.

COMPOUND WORDS.

HAVING learned from the previous Section the meaning of those parts of the compounds, which are to be *postfixed*, the pupil is now prepared to enter upon the present Section, wherein, the other parts being duly defined, the two, in each case, are to be united, and then explained in combination. No change of form will be necessary in uniting them; nothing more being required than merely to write them together as one word. In *defining* the compounds thus produced, however, care must be taken so to connect the meanings of the parts combined, as best to express their united signification. Nor will this be attended with the slightest difficulty, if the pupil be made acquainted, by his teacher, with the true *application* of the words in the lesson, BEFORE he is required to commit it to memory. Few words and few moments only will be required for this purpose. For the mode of preparing the written exercise, see Model 5, on the page preceding.

EXERCISE 686.

Dem,	<i>the people.</i>	} agogue.	Odont,	<i>a tooth.</i>	} algy.
Ped,	<i>a child.</i>		Cephal,	<i>the head.</i>	
Myst,	<i>a mystery.</i>		Noct,*	<i>night.</i>	} ambulist.
Hydr,	<i>water.</i>		Somn,*	<i>sleep.</i>	
Ptysm,	<i>saliva; spittle.</i>		Tri,	<i>three.</i>	} angle.
Cardi,	<i>the heart.</i>		Quadr,	<i>four.</i>	

EXERCISE 687.

Quinqu,	<i>five.</i>	} angular.	Hept,	<i>seven.</i>	ander.
Sex,	<i>six.</i>		Oct,	<i>eight.</i>	andrian.
Phil,	<i>love.</i>	} anthropology.	Mon,†	<i>one.</i>	} arch.
Mia,	<i>hatred.</i>		Chili,	<i>a thousand.</i>	
Cyn,†	<i>a dog.</i>		Iren,	<i>peace,</i>	
Physi,†	<i>nature.</i>		Polem,	<i>war.</i>	

EXERCISE 688.

Mysteri,	<i>mystery.</i>	} arch.	Pent,	<i>five.</i>	} archy.
Myri,	<i>ten thousand.</i>		Hept,	<i>seven.</i>	

* In *application*, there is no difference between *noctambulist* and *somnambulist*.

† NOTE, that most of the compounds to be formed in this Section, regularly admit *suffices*, after the manner of simple, or uncompounded radicals. Thus, *monarch*, gives *monarchy*, *monarchal*, *monarchical*, *monarchist*, *monarchize*, &c. To form and define such words as are derivable, in this way, from those in the regular lesson, should be made a part of the *oral* exercise.

‡ *Cynanthropy* is a species of madness, in which *men* exhibit the qualities of *dogs*. *Physianthropy*, the nature of man, i. e. the doctrine of the constitution and diseases of mankind.

Taxi,	a division of an army.	} arch.	Arist,	the best.	} archy
Top,	a place, a district.		Olig,	the few.	
Aut,	self.	} archy.	Gyn,	a woman.	
Tetr,	four.		Hier,	sacred, or holy	
			Patri,	a father.	

EXERCISE 689.

Nav,	a ship.	} archy.	Mono,	one.	chromatic.
Mon,	one; sole.		Tri,	three.	capsular.
Hydr,	water.	} aulics.	Helio,	the sun.	} centric.
Ceno,	in common.		Geo,	the earth.	
Mono,	one.	} chord.	Agri,	a field.	} culture.
Poly,	many.		Horti,	a garden.	

EXERCISE 690.

Dei,	a god.	} cide.	Fratri,	a brother.	} cide.
Sorori,	a sister.		Sui,	self.	
Parri,	a parent.		Tyranni,	a tyrant.

Quinqu,	<i>five.</i>		Mill,	<i>a thousand.</i>		
Sex,	<i>six.</i>		Ortho,	<i>right; correct.</i>		} epy ethes.
Sept,	<i>seven.</i>		Caco,	<i>evil.</i>		
Oct,	<i>eight.</i>		Long,	<i>long.</i>		} eval.
Nov,	<i>nine.</i>		Prim,	<i>first.</i>		

EXERCISE 694.

Carboni,	<i>charcoal.</i>	} ferous.	Calami,	<i>a hollow stalk.</i>	} ferous.
Cheli,	<i>a claw.</i>		Cortici,	<i>bark.</i>	
Corymbi,	<i>top; head; cluster.</i>		Ensi,	<i>a sword.</i>	
Cauli,	<i>a stem or stalk.</i>		Fructi,	<i>fruit.</i>	
Cruci,	<i>a cross.</i>		Frugi,	<i>fruit or corn.</i>	
Cupri,	<i>copper.</i>		Ferri,	<i>iron.</i>	

EXERCISE 695.

Flori,	<i>a flower.</i>	} ferous.	Lauri,	<i>a laurel.</i>	} ferous.
Foli,	<i>a leaf.</i>		Lumini,	<i>light.</i>	
Glanduli,	<i>gland.</i>		Luci,	<i>light.</i>	
Glandi,	<i>acorns.</i>		Mammī,	<i>a breast.</i>	
Hederi,	<i>ivy.</i>		Melli,	<i>honey.</i>	
Lani,	<i>wool.</i>		Metalli,	<i>metal.</i>	

EXERCISE 696.

Nocti,	<i>night.</i>	} ferous.	Pruni,	<i>a prune.</i>	} ferous.
Nectari,	<i>nectar.</i>		Pomi,	<i>an apple.</i>	
Nuci,	<i>a nut.</i>		Pistilli,	<i>a pistil; a pointal.</i>	
Odori,	<i>scent.</i>		Resini,	<i>resin.</i>	
Palmi,	<i>a palm.</i>		Racemi,	<i>a cluster.</i>	
Bacci,	<i>a berry.</i>		Bulbi,	<i>a round root.</i>	

EXERCISE 697.

Salini,	<i>salt.</i>	} ferous.	Sopori,	<i>sleep; lethargy.</i>	} ferous.
Saluti,	<i>health.</i>		Silici,	<i>a flint.</i>	
Semini,	<i>seed.</i>		Spini,	<i>a thorn.</i>	
Sonori,	<i>sound; noise.</i>		Succi,	<i>sap.</i>	
Somni,	<i>sleep.</i>		Argentī,	<i>silver.</i>	
Stelli,	<i>a star.</i>		Auri,	<i>gold.</i>	

EXERCISE 698.

Tri,	<i>three.</i>	} fid.	Stupe,	<i>stupid; dull.</i>	} faction.*
Quadri,	<i>four.</i>		Torre,	<i>to parch.</i>	
Quinque,	<i>five.</i>		Putre,	<i>rotten; carious.</i>	
Sex,	<i>six.</i>		Sparge,	<i>to sprinkle.</i>	
Octo,	<i>eight.</i>		Tabē,	<i>to waste away.</i>	
Decem,	<i>ten.</i>		Cale,	<i>to be warm, or hot.</i>

Multi, <i>many.</i> } ficent.	Vene, <i>a poison.</i> }
Magni, <i>great.</i> }	Muni, <i>a gift.</i> ficent.

EXERCISE 699

Uancri, <i>a crab.</i> } form.	Fungi, <i>a mushroom.</i> } form.
Cribri, <i>a sieve.</i> }	Ligni, <i>wood.</i> }
Cubi, <i>a cube.</i> }	Pisi, <i>a pea.</i> }
Cylindri, <i>a long circular body.</i> }	Reti, <i>a net.</i> }
Ali, <i>a wing.</i> }	Styli, <i>a style ; a pen.</i> }
Dei, <i>a god.</i> }	Calci, <i>lime or chalk.</i> }

EXERCISE 700.

Capri, <i>a goat.</i> } form.	Luci, <i>light.</i> } form.
Cauli, <i>a stem or stalk.</i> }	Ensi, <i>a sword.</i> }
Cordi, <i>a heart.</i> }	Glandi, <i>an acorn.</i> }
Cruci, <i>a cross.</i> }	Lingua, <i>the tongue.</i> }
Equi, <i>equal.</i> }	Ovi, <i>an egg.</i> }
Lenti, <i>a lens.</i> }	Cymbi, <i>a boat.</i> }

EXERCISE 701.

Denti, <i>a tooth.</i> } form.	Falci, <i>sickle.</i> } form.
Coralli, <i>coral.</i> }	Capilli, <i>hair.</i> }
Culici, <i>a flea.</i> }	Cortici, <i>bark.</i> }
Cuni, <i>a wedge.</i> }	Fistuli, <i>a pipe ; a tube.</i> }
Scuti, <i>a shield.</i> }	Oculi, <i>the eye.</i> }
Stelli, <i>a star.</i> }	Myrti, <i>myrtle.</i> }

EXERCISE 702.

Campani, <i>a bell.</i> } form.	Centi, <i>a hundred.</i> } folious.
Basalti, <i>basalt.</i> }	Asperi, <i>rough.</i> }
Scori, <i>dross.</i> }	Plani, <i>plain.</i> }
Uni, <i>one.</i> }	Rotundi, <i>round.</i> }
Tri, <i>three.</i> }	Melli, <i>honey.</i> }
Omni, <i>all.</i> }	Felli, <i>gall.</i> }
Tri, <i>three.</i> }	Igni, <i>fire.</i> }
Asperi, <i>rough.</i> } foliate.	Rori, <i>dew.</i> }

EXERCISE 703.

Febri, <i>fever.</i> } fuge.	Hexa, <i>six.</i> } gon.
Vermi, <i>a worm.</i> }	Octa, <i>eight.</i> }
Centri, <i>the centre.</i> } fugal.	Poly, <i>many.</i> }
Tri, <i>three.</i> }	Ortho, <i>right.</i> }
Multi, <i>many.</i> }	Oxy, <i>acute.</i> }
Mono, <i>one.</i> }	Chilia, <i>a thousand.</i> }

EXERCISE 705.

Geo,	<i>the earth.</i>	} gnoso.	Ali,	<i>a wing.</i>	} gerous.
Orycto,	<i>a fossil.</i>		Crini,	<i>hair.</i>	
Poly,	<i>many.</i>	} gyn.	Belli,	<i>war.</i>	} gerous.
Tri,	<i>three.</i>		Squami,	<i>a scale.</i>	
Fumi,	<i>smoke.</i>	} gate.	Cruci,	<i>a cross.</i>	} gerous.
Navi,	<i>a ship.</i>		Lani,	<i>wool.</i>	
Astri,	<i>a star.</i>	} gerous.	Mori,*	<i>manner.</i>	} gerous.

EXERCISE 706.

Corni,	<i>a horn.</i>	} gerous.	Poly,†	<i>many.</i>	} graph.
Plumi,	<i>a feather.</i>		Pseudo,	<i>false.</i>	
Parallelo,	<i>a parallel.</i>	} gram.	Mono,	<i>one.</i>	} graph.
Poly,‡	<i>many.</i>		Panto,†	<i>all.</i>	
Mono,‡	<i>one.</i>		Auto,†	<i>self.</i>	
Hiero,	<i>holy ; sacred.</i>		Tele,†	<i>afar.</i>	

EXERCISE 707.

ANEMO,	<i>wind, or vase.</i>	} graphy.¶	ANEMO,	<i>wind, or vase.</i>	} logy.¶
ANGIO,§	<i>a vessel.</i>		ANGIO,§	<i>a vessel.</i>	
ANTHROPO,	<i>man ; man-</i>		ANTHROPO,	<i>man ; mankind.</i>	
	<i>kind.</i>				
ASTRO,	<i>a star.</i>	} graphy.¶	ASTRO,¶	<i>a star.</i>	} logy.¶
Auto,	<i>self.</i>		ASTHENO,	<i>debility.</i>	
AERO,	<i>the air.</i>		AERO,	<i>the air.</i>	

* *Morigerous*, literally, bearing, or exhibiting (an obliging) manner, i. e. obedient obsequious.

† *Polygraph*, an instrument for multiplying copies of a writing ;—*Pantograph*, an instrument for copying all sorts of designs ;—*Autograph*, the writing of one's self, i. e. a person's own hand writing ;—*Telegraph*, an instrument, or contrivance for transmitting news to a distance, by means of signals.

‡ *Polygram* is a figure consisting of many marks, or lines ;—*Monogram*, a character consisting of one, or more letters, interwoven.

§ *Angio*, not only applies to a vessel of the body, as a vein or artery, but, also, to a seed-vessel in a plant.

¶ This general distinction prevails in the application of *graphy* and *logy* : the former signifies a *description*, or *history* of a thing, the latter, a *logical treatise* or *science*. Thus *anemography*, is a *description* or *history* of winds ; *anemology*, the *science* of the winds. Wherever these words, in the Exercises above, have either of these significations, the prefixed word will be printed in small CAPITALS.

¶ *Astrology*, the science of the stars, i. e. the pretended science of judging of their influences, and of predicting future events by observing them.

MANUAL,
ANALYTICAL AND SYNTHETICAL,
OF
ORTHOGRAPHY AND DEFINITION

By James N. McElligott,
PRINCIPAL OF THE MECHANICS' SOCIETY SCHOOL, NEW-YORK.

RECOMMENDATIONS.

Of the numerous recommendations of the foregoing work, with which the author has been favored, the following, (being all that our limits will allow,) are presented, as showing the views of that class of men, who may be supposed to be best qualified to judge of a performance of this kind.

From the Superintendent of Common Schools for the City and County of New York.
New York, 24th February, 1845.

J. N. McELLIGOTT, Esq.

Dear Sir,—I have examined with much attention and high satisfaction, your "Manual of Orthography and Definition," and cordially comply with your request in expressing my estimate of the work. Its *plan* has the merit of novelty, and by its simplicity and natural adaptation to the purposes of both teacher and learner, would seem to be such an one as would develop itself to the experience of a practical man, intent on discovering the best means of imparting knowledge, on this intricate and most difficult subject; and yet I have never seen a work, the *classification* of which appeared to me at once so intelligible and complete.

Within the compass of 200 pages you have condensed an amount of critical information upon the philosophy of the English language, which I apprehend is not to be found in any other single volume; and your extended analyses of compound words with their prefixes, suffixes and radicals accurately discriminated; and the synthetical recomposition of this multitudinous variety of words out of their elements, with all their synonymes, contrarieties, ambiguities and arbitrary variations, must have imposed an amount of labour, which none but an amateur in the profession of teaching could have patiently endured. I cannot doubt that your reputation as a philologist will be enhanced by the publication of this work, and I sincerely desire that the just appreciation of your utilitarian labors among the teachers of our common schools may obtain for this excellent Manual a share of patronage, which shall adequately remunerate your toils, and at the same time contribute to the more thorough instruction of the pupils upon subjects which I regard as lying at the foundation of all other scholastic acquirements.

With high respect, I am yours, &c.,

D. MEREDITH REESE,
Supt. of Common Schools for the City and County of New York

RECOMMENDATIONS.

From the Hon. Theo. Frelinghuysen, Chancellor of the New-York University.

I have examined with some care the "MANUAL OF ORTHOGRAPHY AND DEFINITION," prepared by Mr. J. N. McElligott, of this city, and take pleasure in commending it to the favorable consideration of the friends of education.

There is a fund of good sense, practical wisdom and useful arrangement in this work, not often combined within the same limits. It will, I am persuaded, greatly facilitate the study of our language; and teachers, as well as learners, will find cause for thankfulness to the meritorious author.

THEO. FRELINGHUYSEN.

New York, Mar. 10, 1845.

From the Rev. Isaac Ferris, D.D., President of Rutgers Female Institute, N. Y.

I have examined the recent publication of Mr. McElligott, entitled Analytical Manual, with as much care as my other duties have allowed, and have risen from the examination with the conviction that it is a highly useful book.

The worthy author has given to its preparation much time and labor, and if used on his plan, it will furnish clearer and sounder views of our compound and derivative words than almost any other book I am acquainted with.

I, FERRIS.

MANUAL OF ORTHOGRAPHY AND DEFINITION. By James N. McElligott.—The author of this book is well known as the able Principal of the Mechanics' Society School in this city. In this Manual he has explained the system which he has employed with such eminent success, rendered it familiar and easy, and made its great advantages apparent, by a series of exercises of a peculiarly instructive character.

The late County Superintendent, our lamented colleague, at the examination of the school in November, 1843, expressed, to our knowledge, a high opinion of the discipline which prevailed, and said that in his whole official experience he had found no teacher of the English language whom he considered superior to Mr. McElligott.

New York, March 11, 1845.

TO JAS. N. McELLIOTT, Esq.

Dear Sir,—Highly appreciating the importance of a due knowledge of the matters presented in your "ANALYTICAL MANUAL," and persuaded of the superior excellence of the plan of instruction, which it unfolds, I not only employ the work myself in the Collegiate School, but, also, cheerfully recommend it to others as a most valuable text-book.

MANUAL, ANALYTICAL AND SYNTHETICAL, OF ORTHOGRAPHY AND DEFINITION. By James N. McElligott, Principal of the Mechanics' Society's School. New York: Mark H. Newiman, 199 Broadway, 1845.—Having been for many years personally acquainted with the author of this book, we were prepared to expect the evidences of sedulous industry, sound judgment, and practical skill which its pages exhibit. In this volume will be found not only the completion of the design aimed at, but most imperfectly reached, in Oswald's Etymological Dictionary, Town's Analysis, and several other works of the kind, but, also, such modifications, additions and im-

RECOMMENDATIONS.

improvements of the design itself, as cannot fail to render it a far better substitute than any of these, for a knowledge of Greek and Latin in the study of English orthography and definition, and a much more serviceable manual for the teacher in the business of instruction. One of the most valuable additions consists in tracing, in a systematic way, the connexion between the primary and metaphorical meanings of words,—a design hitherto scarcely attempted in school books. The scholar who faithfully studies it, will become critically versed in the formation and comparison of words, and will seldom be in danger of misspelling a derivative, or misunderstanding its proper meaning.

From the Newark Daily Advertiser.

THE ANALYTICAL AND SYNTHETICAL MANUAL OF ORTHOGRAPHY AND DEFINITION By J. N. McElligott, Principal of the Mechanics' Society School, New York. This is a book constructed on a true philosophic basis. The author, in one series of exercises, takes the roots of the English language, and attaches in systematic order the affixes and suffixes, and again, in other series, takes the compound words and plucks off all their borrowed garniture. Now he familiarizes the EYE to the word, and then he tutors the EAR to it. By this chemical process of separation and combination, the true meaning is elicited. Nor is this a mere accidental excellence; on the contrary, a large portion of the volume is devoted to Definitions. The student who takes it as his guide through the great field of words, cannot fail to be thoroughly indoctrinated in the rudimental principles of our common language.

From Rev. Joseph McKee, Resident Teacher of English and Classical Literature, at Madame Chegary's School, New York.

I do most heartily add my testimonial to those already given in favor of "The Manual of Orthography and Definition," a work which combines the rare excellencies of the strictest philosophical analysis with great practical utility as a school book. It meets a want long felt in the business of the school-room, and in the hands of an intelligent and judicious teacher, it will do more towards drilling a class in a thorough understanding, and a nice discrimination of the use and value of words as the instruments of thought, than any other book I have ever read or used for that purpose. The importance of this branch of Academic study is too much overlooked: utterly so. And hence the failure in acquiring a thorough knowledge of the higher branches of science, results more frequently than is generally supposed, from an imperfect early training of the young mind in the right use and powers of words. This book is admirably adapted, in my opinion, to correct this evil. And it is my sincere wish, that the toil, skill, and philosophic labor of the ingenious author, may meet their full reward.

JOSEPH MCKEE.

From Messrs. Hubbs and Clarke, Principals of Collegiate and Commercial School.

New York, April 28, 1845.

After a somewhat careful examination of Mr. McElligott's "Analytical Manual," we are convinced of its surpassing excellence as a means of acquiring a thorough knowledge of the English language. By its beautiful and perfect system of analysis and instruction, it teaches the *derivation, orthography,* and even *signification* of words in a shorter time and more pleasing manner than the usual methods of arbitrary spelling and defining *can admit* of, by any possibility of application.

We have introduced the work into our own School, and we cordially commend it to the notice of Instructors generally, as a book eminently fitted to form the *basis* of a thorough English education.

ISAAC G. HUBBS.
GEORGE W. CLARKE.

RECOMMENDATIONS.

From Dr. Patterson, Principal of Public School No. 3, and Associate Principal of the Male Normal School.

The "Manual of Orthography and Definition" by Mr. McElligott, Principal of the Mechanics' Society School of this city, is a work of singular merit. It exhibits in tabular forms the radical words of the language, with their meanings and the modifications they undergo in import and form, by the various prefixes and suffixes with which they are usually compounded. The constant practice of thus analyzing words and deducing their signification, is an excellent exercise for improving the intellectual powers, while at the same time the learner is acquiring an extensive and accurate knowledge of the vocables of the language. It is earnestly hoped that the use of this work will henceforth entirely supersede the irksome and stultifying plan of acquiring orthography and definitions, by committing to memory columns of words from a dictionary alphabetically arranged.

DAVID PATTERSON

New York, May 9th, 1845.

From Joseph McKeen, Esq., Principal of Public School No. 5, and Associate Principal of the Male Normal School.

I have examined with interest, a work entitled "Manual, Analytical and Synthetical, of Orthography and Definition, by James N. McElligott." It is, in my judgment, a improvement in etymological exposition upon the best works on the subject—both as to the tabular arrangement of analogous words, and as to the manner of teaching by written exercises, and cannot fail to be of great utility to such especially as have not studied the Latin and Greek Classics. After the scholar is made familiar with the meaning of those inseparable particles, usually denominated from their position prefixes and suffixes, it is surprising how an accurate acquaintance with a comparatively few radical words will furnish a key to the literal meaning of a great number of derivatives. This book has an extensive vocabulary of radical words, and the necessary rules for combining them *synthetically*, with those particles and other *addenda*, that enter into the language. Although, from the anomalies of our language, it is difficult, and, perhaps, impossible to give many rules of general application in orthography, yet, even in this particular, Mr. McE. has accomplished so much that his book ought to be used in all schools.

May, 1845.

JOSEPH MCKEEN.

I concur in the above opinion.

LEONARD HAZELTINE,
Pub. Sch. No. 14.

New York, May 12, 1845.

The "Manual of Orthography and Definition," by James N. McElligott, for the use of schools, is, in my opinion, a work of great merit. It embraces a regular course of instruction in orthography and definition, by which the minds of pupils may be successfully disciplined, and a ready, free, and correct use of words acquired. The value of the book will be readily appreciated by every enlightened teacher, who, in the discharge of his duties, has felt the importance of such a work. Long since impressed with the necessity of a suitable work of this kind, I am glad it has fallen into such competent hands. I shall recommend its adoption by the Trustees of this school, and hope soon to see it in all our schools.

radical character, in my estimation, makes it a desideratum that cannot be too highly appreciated, and which must secure to it that patronage and support of a discerning public which its talented and industrious author so well and justly merits.

I willingly concur in the above recommendation.

JOHN WALSH,

1st Asst. W. S. No. 17.

I have examined with some attention McElligott's "Analytical Manual," and do not hesitate to pronounce it a work of rare merit. The introduction of this book into our schools will render comparatively simple and easy a branch of study that has required more time and labor than any other in the English language. The resolving of words into their elements, and defining the parts separately—the modification of words by means of prefixes and suffixes, are presented in this work in a more simple and philosophical manner than in any other that has come under my observation—and I have no doubt it will soon be introduced into all our best schools.

Extract from a Report of the Book Committee of the TEACHERS' INSTITUTE of the City and County of New York, and *unanimously* adopted by that body, October, 1845.

The Committee, appointed to examine books published for the use of schools, and to give expression to the sentiments of this body respecting them, respectfully report.

That they have carefully examined a volume recently published, a work of great labor and research, by James N. McElligott, Principal of the Mechanics' Society School, New York, and as the book has received their unanimous approval, they submit their judgment respecting it, with the following remarks.

The purpose which it aims to accomplish is to enable scholars, in the course of their early education at school, to acquire a competent knowledge of the words composing the English language; an acquisition of the utmost importance in communicating and receiving knowledge; but one which, if sought in the tedious and repulsive way of studying Dictionaries which is so often adopted in schools, could hardly be attained within the limits of human life. The author of this Manual, with admirable skill, has furnished the means, not only of rendering this acquisition attainable, easy, and attractive, but of bringing it within the compass of a very moderate space of time; for we think that, with this book in his hands, the pupil may acquire all the knowledge which it communicates, without any hindrance to his other studies, within the usual period of a common school education; whereas, the same knowledge obtained by other means would require the additional labor of years.

We would not speak in disparagement of the work of Town, and a few others which have been composed for a similar purpose. We esteem them as useful treatises. But we consider the one before us as far more valuable than any which has heretofore appeared, both in the skilfulness of its arrangement, and in the fulness of its matter. We therefore most earnestly recommend it to the attention of all teachers and parents, as a school-book of inestimable value.

RECOMMENDATIONS.

Mechanics' S. School, New York, Nov. 10th, 1845.

DEAR SIR:

Having attentively perused your "Manual of Orthography and Definition," it is with much pleasure that I express my high opinion of its merits. No other work that I am acquainted with, presents in so systematic and progressive a form, the subject which you treat of; and it seems to me, that the attentive study of your book must supersede, in great measure, the necessity of devoting that large amount of time and labor so generally bestowed on the elements of Greek and Latin, in a scholastic course, as it certainly exhibits most luminously and impressively the classical etymologies of our language.

A very slight examination of your work must convince a teacher that the arrangement of the subject could not possibly be improved, and with regard to the practical operation of the whole system of instruction, I do not hesitate to say, from the complete success with which it has been attended in this school, that nothing can be more satisfactory.

Very truly yours,

C. J. CONWAY,
Vice Prin of Mechanics' S. School

MANUAL, ANALYTICAL AND SYNTHETICAL, OF ORTHOGRAPHY AND DEFINITION, by James N. McElligott. Several works on this subject have been published before this one—all good—all very useful—but none so good as this; which, I think, is about as comprehensive as any of its predecessors, and, at the same time, it has a very great advantage over all of them, in its clearness and simplicity of arrangement, (particularly in its exhibition of the prefixes and suffixes,) which every instructor, and especially every learner, knows so well how to appreciate;—in short, after a deliberate examination, I think it is the best work on the subject of which it treats, that has yet appeared, and I heartily commend it to every instructor. I shall immediately introduce it into my own school, in place of the work which has hitherto been used.

The undersigned having carefully examined McElligott's "Analytical Manual," have no hesitation in pronouncing it a work of rare merit. In simplicity and utility of arrangement, in correctness of statement and definition, in accuracy and completeness of analysis, in congruity as a system, and strict adherence throughout, to the plan of instruction proposed; this work has few, if any superiors in the long list of school-books already before the public
